## **INDEPENDENT AUDITORS' REPORT**

The Stockholders and the Board of Directors  
Maynilad Water Services, Inc.

We have audited the accompanying consolidated financial statements of Maynilad Water Services, Inc. and Subsidiaries (a subsidiary of Maynilad Water Holding Company, Inc.), which comprise the consolidated statements of financial position as at December 31, 2014 and 2013, and the consolidated statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2014, and a summary of significant accounting policies and other explanatory information.

### ***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

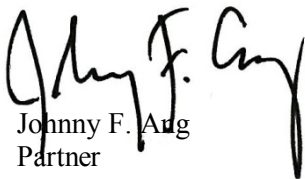

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Maynilad Water Services, Inc. and Subsidiaries as at December 31, 2014 and 2013, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2014 in accordance with Philippine Financial Reporting Standards.

---

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Amounts in Thousands, Except Number of Shares, Earnings Per Share Value  
and Unless Otherwise Specified)**

---

**1. Corporate Information and Status of Operations**

General

Maynilad Water Services, Inc. (Maynilad or Parent Company) was incorporated on January 22, 1997 in the Philippines primarily to bid for the operation of the privatized system of waterworks and sewerage services of the Metropolitan Waterworks and Sewerage System (MWSS) for Metropolitan Manila.

On October 26, 2011, the Securities and Exchange Commission (SEC) approved the amendment of the Articles of Incorporation to amend its primary purpose to include the provision of allied and ancillary services and undertaking such other activities incidental to its secondary purpose.

Effective Interest in Maynilad

*MWHCI and Maynilad Subscription Agreements.* Pursuant to the Subscription Agreements executed between Maynilad and Maynilad Water Holding Company, Inc. (MWHCI), a company incorporated in the Philippines and a 51.27% owned subsidiary of Metro Pacific Investments Corporation (MPIC), MWHCI subscribed to 134,022 common shares of Maynilad at par value on December 28, 2012. Such shares, however, were issued only on February 13, 2013 and together with the additional subscription to 402,067 common shares increased MWHCI ownership interest in Maynilad to 92.85% as at December 31, 2013 (see Note 14).

*MCNK JV Corporation and MWHCI Subscription Agreements.* On December 28, 2012, a Subscription Agreement between MCNK JV Corporation (MCNK, a subsidiary of a Japan-listed entity Marubeni Corp.) and MWHCI was executed, wherein MCNK subscribed to 169,617,682 common shares of MWHCI. On February 13, 2013, MCNK and MWHCI entered into another Subscription Agreement for the subscription by MCNK to an additional 508,853,045 common shares of MWHCI. On the same date, MPIC purchased 154,992,852 common shares of stock of MWHCI from DMCI Holdings, Inc. (DMCI, a listed Philippine entity) resulting in 51.27% ownership interest as at December 31, 2013.

As at December 31, 2014 and 2013, Maynilad is a 92.85% owned subsidiary of MWHCI. In addition, MPIC directly owned 5.19% of Maynilad thereby having effective ownership interest of 52.80%.

As at December 31, 2014, MPIC is 55.8% owned by Metro Pacific Holdings, Inc. (MPHI). MPHI is a Philippine corporation whose stockholders are Enterprise Investment Holdings, Inc. (EIH) (60.0%), Intalink B.V. (26.7%) and First Pacific International Limited (13.3%). First Pacific Company Limited (FPC), a company incorporated in Bermuda and listed in Hong Kong, through its subsidiaries, holds 40.0% equity interest in EIH and an investment financing which under Hong Kong Generally Accepted Accounting Principles require FPC to account for the results and assets and liabilities of EIH and its subsidiaries as FPC group companies in Hong Kong.

The registered office address of the Parent Company is MWSS Compound, Katipunan Road, Balara, Quezon City.

The accompanying consolidated financial statements were approved and authorized for issue by the Board of Directors (BOD) on February 23, 2015.

#### Concession Agreement

On February 21, 1997, the Parent Company entered into a Concession Agreement with the MWSS, a government-owned and controlled corporation organized and existing pursuant to Republic Act (RA) No. 6234 (the Charter), as clarified and amended, with respect to the MWSS West Service Area. The Concession Agreement sets forth the rights and obligations of the Parent Company throughout the concession period. The MWSS Regulatory Office acts as the regulatory body of the Concessionaires [the Parent Company and the East Concessionaire - Manila Water Company, Inc. (Manila Water)].

Under the Concession Agreement, MWSS grants the Parent Company (as contractor to perform certain functions and as agent for the exercise of certain rights and powers under the Charter), the sole right to manage, operate, repair, decommission and refurbish all fixed and movable assets required (except certain retained assets of MWSS) to provide water and sewerage services in the West Service Area for an extended period of 40 years commencing on August 1, 1997 (the Commencement Date) to May 6, 2037 or the early termination date as the case may be.

The Parent Company is also tasked to manage, operate, repair, decommission and refurbish certain specified MWSS facilities in the West Service Area. The legal title to these assets remains with MWSS. The legal title to all property, plant and equipment contributed to the existing MWSS system by the Parent Company during the concession period remains with the Parent Company until the Expiration Date (or on early termination date) at which time, all rights, titles and interest in such assets will automatically vest in MWSS.

#### Fourth Rate Rebasing

MWSS released Board of Trustees Resolution No. 2013-100-RO dated September 12, 2013 and Regulatory Office (RO) Resolution No. 13-010-CA dated September 10, 2013 on the rate rebasing adjustment for the rate rebasing period 2013 to 2017 reducing the Parent Company's 2012 average all-in basic water charge by 4.82% or ₱1.46 per cubic meter (cu.m) or ₱0.29 per cubic meter (cu.m) over the next five years. The Parent Company has formally notified its objection and initiated arbitration proceedings. On October 4, 2013, the Parent Company filed its Dispute Notice before the Appeals Panel.

On December 17, 2013, the Regulatory Office released Resolution No. 13-011-CA regarding the implementation of a status quo for the Parent Company's Standard Rates and Foreign Currency Differential Adjustment (FCDA) for any and all its scheduled adjustments until such time that the Appeals Panel has issued the Final Award.

On February 12, 2014, the International Chamber of Commerce appointed the chairman of the Appeals Panel. On April 21, 2014 the Appeals Panel is deemed constituted with the acceptance of Maynilad's nominee.

The formal hearings were held from August 24 to September 1, 2014. The closing memorials were submitted on October 6, 2014 and the reply memorials on October 31, 2014.

On January 5, 2015, Maynilad officially received the Appeals Panel's award dated December 29, 2014 (the "Award") upholding Maynilad's alternative Rebasing Adjustment for the 4th Rate Rebasing Period of 13.41% or its equivalent of ₱4.06/cu.m. This increase has effectively been reduced to ₱3.06, following the integration of the ₱1.00 Currency Exchange Rate Adjustment into the basic water charge. To mitigate the impact of the tariff increase on its customers, Maynilad offered to stagger its implementation over a three-year period.

The Award, being final and binding on the parties, Maynilad asked the MWSS to cause its Board of Trustees to approve the 2015 Tariffs Table so that the same can be published and implemented 15 days after its publication.

However, the MWSS and the Regulatory Office have chosen, over Maynilad's repeated objections, to defer the implementation of the Award despite the Award being final and binding on the parties. In its letter dated February 9, 2015, the MWSS and Regulatory Office, who received their copy of the Award on January 7, 2015, informed Maynilad that they have decided to await the final outcome of their arbitration with the other concessionaire, Manila Water, before making any official pronouncements on the applicable resulting water rates for the two concessionaires.

On February 20, 2015, Maynilad wrote the Philippine Government, through the Department of Finance (DOF), to call on the undertaking which the Republic of the Philippines (the "Republic") issued in favor of Maynilad on July 31, 1997 and March 17, 2010 (the "Undertaking"). The Undertaking provides, among other things, that the Republic shall indemnify Maynilad in respect of any loss that is occasioned by a delay caused by the Republic or any government-owned agency in implementing any increase in the Standard Rates beyond the date for its implementation in accordance with the Concession Agreement.

As at February 23, 2015, Maynilad is still awaiting the MWSS Board of Trustees to approve the 2015 Tariff Table showing the adjusted rates and the DOF's reply.

---

## 2. Summary of Significant Accounting and Financial Reporting Policies

### Basis of Preparation

The consolidated financial statements of the Company have been prepared on a historical cost basis. The consolidated financial statements are presented in Philippine peso, which is the Parent Company's functional and presentation currency, and all amounts are rounded to the nearest thousand (₱000), except when otherwise indicated.

### Statement of Compliance

The Company's consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS include statements named PFRS and Philippine Accounting Standards (PAS), including Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) issued by the Financial Reporting Standards Council (FRSC).

### Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and all of its subsidiaries ("the Company") as at December 31, 2014. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee, if and only if, the Company has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date of the Company gains control until the date the Company ceases to control the subsidiary.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

The consolidated financial statements comprise of the financial statements of Maynilad and the following subsidiaries (collectively referred to as the “Company”) that it controls:

Subsidiaries	Nature of Business
Philippine Hydro, Inc. (Phil Hydro)*	Bulk water supply and water distribution (outside the West Service Area)
Amayi Water Solutions Inc. (Amayi)**	Water distribution (outside the West Service Area)

\*Acquired on August 3, 2012  
\*\*Incorporated on July 18, 2012

All subsidiaries are wholly-owned and incorporated in the Philippines.

*Phil Hydro.* Phil Hydro is engaged in waterworks construction, engineering and engineering consulting services. Phil Hydro is currently undertaking water supply projects outside Metro Manila in line with the thrusts of the government under Presidential Decree No. 198, also known as the Provincial Water Utilities Act of 1973, which mandates the local government units to create and operate local water utilities and provide potable water to the public.

Phil Hydro has existing 25-year Bulk Water Supply Agreements with various provincial municipalities outside the West Service Area and a Memorandum of Agreement with certain provincial municipality for the construction and operation of water treatment facilities for water distribution services.

*Amayi.* Amayi is incorporated for the purpose of operating, managing, maintaining and rehabilitating waterworks, sewerage and sanitation system and services outside the Concession Area.

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using consistent accounting policies. All significant intercompany balances, transactions, income and expense and profits and losses from intercompany transactions are eliminated in full in the consolidation.

### Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those of the previous financial year, except for the adoption of the following amended PAS and PFRS which were adopted effective beginning January 1, 2014. Except as otherwise indicated, adoption of the new standards and amendments has no impact on the Company's consolidated financial statements. The nature of each new standard and amendment is described below:

- Investment Entities (Amendments to PFRS 10, *Consolidated Financial Statements*, PFRS 12, *Disclosure of Interests in Other Entities*, and PAS 27, *Separate Financial Statements*)

These amendments provide an exception to the consolidation requirement for entities that meet the definition of an investment entity under PFRS 10. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss.

- PAS 32, *Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities*

These amendments to PAS 32 clarify the meaning of “currently has a legally enforceable right to set-off” and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. While the amendment is expected not to have any impact on the net assets of the Company, any changes in offsetting is expected to impact leverage ratios and regulatory capital requirements. The amendments affect presentation only and have no impact on the Company's financial position or performance.

- PAS 36, *Impairment of Assets – Recoverable Amount Disclosures for Non-Financial Assets* (Amendments)

These amendments remove the unintended consequences of PFRS 13, *Fair Value Measurement* on the disclosures required under PAS 36. In addition, these amendments require disclosure of the recoverable amounts for the assets or cash-generating units (CGUs) for which impairment loss has been recognized or reversed during the period.

- PAS 39, *Financial Instruments: Recognition and Measurement – Novation of Derivatives and Continuation of Hedge Accounting* (Amendments)

These amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria. The Company does not have derivatives during the current period. However, these amendments would be considered for future novations.

- Philippine Interpretation IFRIC 21, *Levies*

IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached.

- Annual Improvements to PFRSs (2010-2012 cycle)

In the 2010-2012 annual improvements cycle, the International Accounting Standards Board (IASB) issued seven amendments to six standards, which included an amendment to PFRS 13, *Fair Value Measurement*. The amendment to PFRS 13 is effective immediately and, thus, for periods beginning at January 1, 2014, and it clarifies in the Basis for Conclusions that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial.

- Annual Improvements to PFRSs (2011-2013 cycle)

In the 2011-2013 annual improvements cycle, the IASB issued four amendments to four standards, which included an amendment to PFRS 1, *First-time Adoption of International Financial Reporting Standards*. The amendment to PFRS 1 is effective immediately and, thus, for periods beginning at January 1, 2014, and clarifies in the Basis for Conclusions that an entity may choose to apply either a current standard or a new standard that is not yet mandatory, but permits early application, provided either standard is applied consistently throughout the periods presented in the entity's first PFRS financial statements.

This amendment is not applicable to the Company as it is not a first-time adopter of PFRS.

#### Standards, Interpretations and Amendments to Existing Standards Not Yet Effective

The Company did not early adopt the following amendments to existing standards and interpretations that have been approved but are not yet effective as at December 31, 2014.

Except as otherwise indicated, the Company does not expect the adoption of these amendments and interpretations to have an impact on its consolidated financial statements.

- PFRS 9, *Financial Instruments: Classification and Measurement*

PFRS 9, as issued, reflects the first and third phases of the project to replace PAS 39 and applies to the classification and measurement of financial assets and liabilities and hedge accounting, respectively. Work on the second phase, which relate to impairment of financial instruments, and the limited amendments to the classification and measurement model hedge accounting is still ongoing, with a view to replace PAS 39 in its entirety. PFRS 9 requires all financial assets to be measured at fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding. All other debt instruments are subsequently measured at fair value through profit or loss. All equity financial assets are measured at fair value either through other comprehensive income (OCI) or profit or loss. Equity financial assets held for trading must be measured at fair value through profit or loss. For liabilities designated as at fair value through profit or loss (FVPL) using the fair value option, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change relating to the entity's own credit risk in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward to PFRS 9, including the embedded derivative bifurcation separation rules and the criteria for using the FVO. The adoption of the first phase of PFRS 9 will have an effect on the classification and measurement of the Company's financial assets, but will potentially have no impact on the classification and measurement of financial liabilities.

PFRS 9 currently has no mandatory effective date. PFRS may be applied before the completion of the limited amendments to the classification and measurement model and impairment methodology. The Company will not adopt the standard before the completion of the limited amendments and the second phase of the project.

- Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*

This interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The SEC and the FRSC have deferred the effectivity of this interpretation until the final Revenue standard is issued by the IASB and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed. This interpretation is not relevant to the Company.

#### *Effective 2015*

- PAS 19, *Employee Benefits – Defined Benefit Plans: Employee Contributions* (Amendments)

PAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. This amendment is effective for annual periods beginning on or after January 1, 2015. It is not expected that this amendment would be relevant to the Company, since the Company does not have defined benefit plans with contributions from employees or third parties.

#### *Annual Improvements to PFRSs (2010–2012 cycle)*

The Annual Improvements to PFRSs (2010–2012 cycle) contain non-urgent but necessary amendments to the following standards:

- PFRS 2, *Share-based Payment – Definition of Vesting Condition*

This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including:

- A performance condition must contain a service condition
- A performance target must be met while the counterparty is rendering service
- A performance target may relate to the operations or activities of an entity, or to those of another entity in the same group
- A performance condition may be a market or non-market condition
- If the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied.

- PFRS 3, *Business Combinations – Accounting for Contingent Consideration in a Business Combination*

The amendment clarifies that a contingent consideration that meets the definition of a financial instrument should be classified as a financial liability or as equity in accordance with PAS 32. Contingent consideration that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of PFRS 9 (or PAS 39,

if PFRS 9 is not yet adopted). The amendment shall be prospectively applied to business combinations for which the acquisition date is on or after July 1, 2014. The Company shall consider this amendment for future business combinations.

- PFRS 8, *Operating Segments – Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments’ Assets to the Entity’s Assets*

The amendments require entities to disclose the judgment made by management in aggregating two or more operating segments. This disclosure should include a brief description of the operating segments that have been aggregated in this way and the economic indicators that have been assessed in determining that the aggregated operating segments share similar economic characteristics. The amendments also clarify that an entity shall provide reconciliations of the total of the reportable segments’ assets to the entity’s assets if such amounts are regularly provided to the chief operating decision maker. These amendments are effective for annual periods beginning on or after July 1, 2014 and are applied retrospectively. The amendments affect disclosures only and have no impact on the Company’s financial position or performance.

- PAS 16, *Property, Plant and Equipment-Revaluation Method – Proportionate Restatement of Accumulated Depreciation*

The amendment is applied retrospectively and clarifies in PAS 16 and PAS 38, *Intangible Assets* that the asset may be revalued by reference to the observable data on either the gross or the net carrying amount. In addition, the accumulated depreciation or amortization is the difference between the gross and carrying amounts of the asset.

- PAS 24, *Related Party Disclosures – Key Management Personnel*

The amendment is applied retrospectively and clarifies that a management entity, which is an entity that provides key management personnel services, is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services.

#### *Annual Improvements to PFRSs (2011–2013 cycle)*

The Annual Improvements to PFRSs (2011–2013 cycle) contain non-urgent but necessary amendments to the following standards:

- PFRS 3, *Business Combinations – Scope Exceptions for Joint Arrangements*

The amendment is applied prospectively and clarifies the following regarding the scope exceptions within PFRS 3:

- Joint arrangements, not just joint ventures, are outside the scope of PFRS 3.
- This scope exception applies only to the accounting in the financial statements of the joint arrangement itself.

- PFRS 13, *Fair Value Measurement – Portfolio Exception*

The amendment is applied prospectively and clarifies that the portfolio exception in PFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of PAS 39. The amendment has no significant impact on the Company’s financial position or performance.

- PAS 40, *Investment Property*

The amendment is applied prospectively and clarifies that PFRS 3, and not the description of ancillary services in PAS 40, is used to determine if the transaction is the purchase of an asset or business combination. The description of ancillary services in PAS 40 only differentiates between investment property and owner-occupied property (i.e., property, plant and equipment).

*Effective 2016*

- PFRS 10, *Consolidated Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures* – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

These amendments address an acknowledged inconsistency between the requirements in PFRS 10 and those in PAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. These amendments are effective from annual periods beginning on or after January 1, 2016.

- PFRS 11, *Joint Arrangements – Accounting for Acquisitions of Interests in Joint Operations* (Amendments)

The amendments to PFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant PFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to PFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any impact to the Company.

- PFRS 14, *Regulatory Deferral Accounts*

PFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of PFRS. Entities that adopt PFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and other comprehensive income. The standard requires disclosures on the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. PFRS 14 is effective for annual periods beginning on or after January 1, 2016. Since the Company is an existing PFRS preparer, this standard would not apply.

- PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets – Clarification of Acceptable Methods of Depreciation and Amortization* (Amendments)

The amendments clarify the principle in PAS 16 and PAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are effective prospectively for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any impact to the Company given that it has not used a revenue-based method to depreciate its non-current assets.

- PAS 16, *Property, Plant and Equipment*, and PAS 41, *Agriculture – Bearer Plants* (Amendments)

The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of PAS 41. Instead, PAS 16 will apply. After initial recognition, bearer plants will be measured under PAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of PAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, PAS 20, *Accounting for Government Grants and Disclosure of Government Assistance*, will apply. The amendments are retrospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any impact to the Company as it does not have any bearer plants.

- PAS 27, *Separate Financial Statements – Equity Method in Separate Financial Statements* (Amendments)

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of PFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to PFRS. The amendments are effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments will not have any impact on the Company's consolidated financial statements.

*Annual Improvements to PFRSs (2012–2014 cycle)*

The Annual Improvements to PFRSs (2012–2014 cycle) are effective for annual periods beginning on or after January 1, 2016 and are not expected to have a material impact on the Company. They include:

- PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations – Changes in Methods of Disposal*

The amendment is applied prospectively and clarifies that changing from a disposal through sale to a disposal through distribution to owners and vice-versa should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no

interruption of the application of the requirements in PFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification.

- PFRS 7, *Financial Instruments: Disclosures – Servicing Contracts*

PFRS 7 requires an entity to provide disclosures for any continuing involvement in a transferred asset that is derecognized in its entirety. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance in PFRS 7 in order to assess whether the disclosures are required. The amendment is to be applied such that the assessment of which servicing contracts constitute continuing involvement will need to be done retrospectively. However, comparative disclosures are not required to be provided for any period beginning before the annual period in which the entity first applies the amendments.

- PFRS 7 – *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*

This amendment is applied retrospectively and clarifies that the disclosures on offsetting of financial assets and financial liabilities are not required in the condensed interim financial report unless they provide a significant update to the information reported in the most recent annual report.

- PAS 19, *Employee Benefits – Regional Market Issue regarding Discount Rate*

This amendment is applied prospectively and clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.

- PAS 34, *Interim Financial Reporting – Disclosure of Information ‘Elsewhere in the Interim Financial Report’*

The amendment is applied retrospectively and clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report).

#### *Effective 2018*

- PFRS 9, *Financial Instruments – Hedge Accounting and Amendments to PFRS 9, PFRS 7 and PAS 39 (2013 version)*

PFRS 9 (2013 version) already includes the third phase of the project to replace PAS 39 which pertains to hedge accounting. This version of PFRS 9 replaces the rules-based hedge accounting model of PAS 39 with a more principles-based approach. Changes include replacing the rules-based hedge effectiveness test with an objectives-based test that focuses on the economic relationship between the hedged item and the hedging instrument, and the effect of credit risk on that economic relationship; allowing risk components to be designated as the hedged item, not only for financial items but also for non-financial items, provided that the risk component is separately identifiable and reliably measurable; and allowing the time value of an option, the forward element of a forward contract and any foreign currency basis spread

to be excluded from the designation of a derivative instrument as the hedging instrument and accounted for as costs of hedging. PFRS 9 also requires more extensive disclosures for hedge accounting.

PFRS 9 (2013 version) has no mandatory effective date. The mandatory effective date of January 1, 2018 was eventually set when the final version of PFRS 9 was adopted by the FRSC. The adoption of the final version of PFRS 9, however, is still for approval by the Board of Accountancy. The adoption of PFRS 9 is not expected to have any significant impact on the Company's consolidated financial statements.

- PFRS 9, *Financial Instruments* (2014 or final version)

In July 2014, the final version of PFRS 9, *Financial Instruments*, was issued. PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. Early application of previous versions of PFRS 9 is permitted if the date of initial application is before February 1, 2015.

The adoption of PFRS 9 is not expected to have any significant impact on the Company's consolidated financial statements.

The following new standard issued by the IASB has not yet been adopted by the FRSC:

- IFRS 15, *Revenue from Contracts with Customers*

IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2017 with early adoption permitted. The Company is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

The Company continues to assess the impact of the above new, amended and improved accounting standards and interpretations effective subsequent to December 31, 2014 on the consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

#### Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method of accounting. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in costs and expenses.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with PAS 39 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it is not remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in the consolidated statement of income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

If the initial accounting for business combination can be determined only provisionally by the end of the period by which the combination is effected because the fair values to be assigned to the acquiree's identifiable assets, liabilities can be determined only provisionally, the Company accounts the combination using provisional fair values. Adjustments to those provisional fair values as a result of completing the initial accounting shall be made within 12 months from the acquisition date. The carrying amount of an identifiable asset, liability or contingent liability that is recognized as a result of completing the initial accounting shall be calculated as if its fair value at the acquisition date had been recognized from that date and goodwill or any gain recognized shall be adjusted from the acquisition date by an amount equal to the adjustment to the fair value at the acquisition date of the identifiable asset, liability or contingent liability being recognized or adjusted.

#### Fair Value Measurement

The Company measures financial instruments at fair value at each report date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring and nonrecurring fair value measurements.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Fair value measurement disclosures are presented in Note 26.

#### Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from acquisition date and that are subject to an insignificant risk of change in value.

#### Short-term Investments

Short-term investments are investments with maturities of more than three months to one year.

## Financial Assets and Financial Liabilities

*Date of Recognition.* The Company recognizes a financial asset or a financial liability in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, are done using trade date accounting.

*Initial Recognition.* Financial assets and financial liabilities are recognized initially at fair value. Transaction costs are included in the initial measurement of all financial assets and liabilities, except for financial instruments measured at fair value through profit or loss (FVPL).

*Categories of Financial Assets.* Financial assets are classified into the following categories: financial assets at FVPL, loans and receivables, held-to-maturity (HTM) investments, and AFS financial assets. Financial liabilities are classified as financial liabilities at FVPL or other financial liabilities. The Company determines the classification at initial recognition and, where allowed and appropriate, re-evaluates this designation at each reporting date.

*'Day 1' difference.* Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the consolidated statement of income unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statement of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the 'Day 1' difference amount.

*Loans and Receivables.* Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified or designated as AFS financial assets or financial assets at FVPL. After initial recognition, loans and receivables are carried at amortized cost in the consolidated statement of financial position using the effective interest method, less allowance for impairment. Amortization is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in the consolidated statement of income when loans and receivables are derecognized and impaired, as well as through the amortization process. Loans and receivables are included in current assets if maturity is within twelve months from the reporting date. Otherwise, these are classified as noncurrent assets.

This category includes the Company's cash and cash equivalents, short-term investments, trade and other receivables, sinking fund, deposits and miscellaneous deposits shown as part of "Other noncurrent assets" account in the consolidated statements of financial position (see Notes 5, 6 and 7).

*AFS Financial Assets.* Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. After initial recognition, available-for-sale financial assets are measured at fair value with unrealized gains or losses being recognized in the consolidated statement of comprehensive income and presented as a separate component of equity until the investment is derecognized or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is included in the consolidated statement of

income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, net of impairment, if any. Assets under this category are classified as current assets if the Company intends to hold the assets within 12 months from financial reporting date and as noncurrent assets if it is more than a year from financial reporting date.

The Company's unquoted AFS financial assets amounted to ₱110.4 million and ₱210.6 million as at December 31, 2014 and 2013, respectively. Impairment loss on its AFS financial assets amounted to ₱100.2 million in 2014 and nil in 2013 and 2012 (see Note 10).

*Other Financial Liabilities at Amortized Cost.* Financial liabilities are classified in this category if these are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations or borrowings.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method.

Gains or losses are recognized in the consolidated statement of income when the liabilities are derecognized as well as through the amortization process.

Debt issuance costs are amortized using the effective interest method. The unamortized debt issuance costs are netted against the related carrying value of the debt instrument.

This category includes trade and other payables, interest-bearing loans, service concession obligation payable to MWSS and customers' deposits (see Notes 11, 12 and 13).

#### Classification of Financial Assets and Financial Liabilities Between Debt and Equity

A financial asset and financial liability is classified as debt if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Company does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

#### Impairment of Financial Assets

The Company assesses at each reporting date whether a financial asset or group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss' event) and that loss event (or events) has an impact on the estimated future cash flows of the financial assets that can be reliably measured. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and when observable date indicate that there is a measureable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

*Assets Carried at Amortized Cost.* If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset shall be reduced either directly or through use of an allowance account. The amount of the loss shall be recognized in the consolidated statement of income.

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statement of income, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

*Assets Carried at Cost.* If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

*AFS Financial Assets.* The Company assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired. The evidence of impairment for equity securities classified as AFS financial assets would include a significant or prolonged decline in fair value of investments below its cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the other comprehensive income – is removed from other comprehensive income and recognized in profit or loss in the consolidated statement of income. Impairment losses on equity investments are not reversed through the profit or loss in the consolidated statement of income. Increases in fair value after impairment are recognized directly in other comprehensive income in the consolidated statement of comprehensive income.

#### Derecognition of Financial Assets and Financial Liabilities

*Financial Assets.* A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the Company's right to receive cash flows from the asset has expired; or
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or

- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

*Financial Liabilities.* A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of income.

#### Offsetting Financial Assets and Financial Liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### Materials and Supplies

Materials and supplies (shown as part of "Others" under "Other current assets" account) are valued at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value is the current replacement cost.

#### Service Concession Assets

*Parent Company.* The Parent Company accounts for its concession arrangement with MWSS in accordance with IFRIC 12, *Service Concession Arrangement* under the Intangible Asset model as it receives the right (license) to charge users of public service. Under the Concession Agreement, the Parent Company is granted the sole and exclusive right and discretion during the concession period to manage, occupy, operate, repair, maintain, decommission and refurbish the identified facilities required to provide water services. The legal title to these assets shall remain with MWSS at the end of the concession period.

*Phil Hydro.* Phil Hydro accounts for its Bulk Water Supply Agreements in accordance with IFRIC 12 under the Intangible Asset model as it receives the right (license) to charge users of public service.

Service concession assets are recognized to the extent that the Company receives a license or right to charge the users of the public service. The "Service Concession Assets" (SCA) pertain to the fair value of the service concession obligations at drawdown date and construction costs related to the rehabilitation works performed by the Company. Beginning January 1, 2013, the Parent Company's SCA is amortized using unit-of-production (UOP) method over the projected total billable volume during the remaining term of the service concession arrangement. Prior to

January 1, 2013, the SCA is amortized using the straight-line method over the terms of the service concession arrangements. Phil Hydro continues to amortize its SCA using straight-line method over the terms of the Bulk Water Supply Agreements.

The Company recognizes and measures revenue from rehabilitation works using the percentage-of-completion method. Under this method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated physical completion of the contract work.

Cost of rehabilitation works, which includes all direct materials, labor costs, and those indirect costs related to contract performance, is recognized consistent with the revenue recognition method applied. Expected losses on contracts are recognized immediately when it is probable that the total contract costs will exceed total contract revenue. Changes in contract performance, contract conditions and estimated profitability including those arising from contract penalty provisions and final contract settlements which may result in revisions to estimated costs and gross margins are recognized in the year in which the revisions are determined.

Subsequent costs and expenditures related to the concession agreement are recognized as additions to service concession assets at fair value of obligations at drawdown date and cost of rehabilitation works.

#### Property and Equipment

Property and equipment, except land, are stated at cost less accumulated depreciation and any impairment in value (see policy on "Impairment of Nonfinancial Assets"). Land is stated at cost.

The initial cost of property and equipment comprises its purchase price, including import duties, taxes and any directly attributable costs in bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance, are normally charged to income in the period such costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation is calculated for each significant item or part of an item of property and equipment on a straight-line basis over the following estimated useful lives:

Land improvements	5 years
Instrumentation, tools and other equipment	5 to 25 years
Office furniture, fixtures and equipment	5 years
Transportation equipment	5 years

The Company computes for depreciation charges based on the significant component of the asset.

The useful lives and depreciation method are reviewed periodically to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged to current operations.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the items) is included in the consolidated statement of income in the year the item is derecognized.

Impairment of Nonfinancial Assets (Property and Equipment and Service Concession Assets)

An assessment is made at each reporting date to determine whether there is any indication of impairment of any nonfinancial assets, or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use or its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

An impairment loss is recognized only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged to operations in the year in which it arises.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however, not to an amount higher than the carrying amount that would have been determined (net of any depreciation and amortization) had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is credited to current operations.

Goodwill

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in the consolidated statement of income. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from synergies of the combination irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated:

- represents the lowest level within the Company at which the goodwill is monitored for internal management purposes; and
- not larger than an operating segment determined in accordance with PFRS 8, *Operating Segments*.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Goodwill is reviewed for impairment, annually or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined by assessing the recoverable amount of the cash-generating unit, to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed and the portion of the cash-generating unit retained. Impairment loss with respect to goodwill is not reversed.

Negative goodwill which is the excess of the fair values of acquired identifiable assets and liabilities of subsidiaries over the acquisition cost of that interest, is credited directly to income. Transfers of assets between commonly controlled entities are accounted for under historical cost accounting.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

When subsidiaries are sold, the difference between the selling price and the net assets plus cumulative translation adjustments and goodwill is recognized in the consolidated statement of income.

#### Foreign Currency-Denominated Transactions

Foreign exchange differentials arising from foreign currency transactions are credited or charged to operations. As approved by the MWSS Board of Trustees (BoT) under Amendment No. 1 of the Concession Agreement, the following will be recovered through billings to customers:

- Restatement of foreign currency-denominated loans;
- Excess of actual Concession Fee payments over the amounts of Concession Fees translated using the base exchange rate assumed in the business plan approved every rate rebasing exercise;
- Excess of actual interest payments translated at exchange spot rates on settlement dates over the amounts of interest translated at drawdown date rates; and
- Excess of actual payments of other financing charges relating to foreign currency-denominated loans translated at exchange spot rates on settlement dates over the amount of other financing charges translated at drawdown date rates.

In view of the automatic reimbursement mechanism, the Parent Company recognized a deferred foreign currency differential adjustment (FCDA) (included as part of "Other noncurrent assets" or "Deferred credits" accounts in the consolidated statements of financial position) with a corresponding credit (debit) to FCDA revenues for the unrealized foreign exchange losses (foreign exchange gains) which have not been billed or which will be refunded to the customers. The write-off of the deferred FCDA or reversal of deferred credits pertaining to concession fees will be made upon determination of the new base foreign exchange rate, which is assumed in the business plan approved by the Regulatory Office during the latest Rate Rebasing exercise, unless indication of impairment of the deferred FCDA would be evident at an earlier date.

Deferred credits are calculated as the difference between the drawdown or rebased rate versus the closing rate. These were presented as part of “Deferred credits” account in the consolidated statements of financial position.

#### Customers’ Deposits

Customers’ deposits are initially measured at fair value. After initial recognition, these deposits are subsequently measured at amortized cost using the effective interest method. Amortization of customers’ deposits is included under “Interest expense and other financing charges” account in the consolidated statement of income. The discount is recognized as deferred credits and amortized over the remaining concession period using the effective interest method. Amortization of deferred credits is included as part of “Other income” account in the consolidated statement of income.

As at December 31, 2014 and 2013, the discount, shown as part of “Deferred credits” account in the consolidated statements of financial position, amounted to ₱532.6 million and ₱489.0 million, respectively.

#### Assets Held in Trust

Assets which are owned by MWSS but are used in the operations of the Parent Company under the Concession Agreement are not reflected in the consolidated statement of financial position but carried as Assets Held in Trust, except for certain assets transferred to the Parent Company as mentioned in Note 24.

#### Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received, excluding discounts, rebates and value-added tax (VAT). Water and sewerage are billed every month according to the bill cycles of the customers. As a result of bill cycle cut-off, monthly service revenue earned but not yet billed at end of the month are estimated and accrued. These estimates are based on historical consumption of the customers.

Revenue from water and sewerage services is recognized upon supply of water to the customers and when the related services are rendered. Billings to customers consist of the following:

a. Water charges

- Basic charges represent the basic tariff charged to consumers for the provision of water services.
- FCDA is the tariff mechanism that allows the Parent Company to recover foreign exchange losses or to compensate foreign exchange gains on a current basis beginning January 1, 2002 until the Expiration Date.
- Maintenance service charge represents a fixed monthly charge per connection. The charge varies depending on the meter size.

b. Environmental charge (included as part of revenue from sewer/sanitation services) represents 20% of the water charges, except for maintenance charge.

c. Sewerage charge represents 20% of the water charges, excluding maintenance service charge, for all consumers connected to the Company’s sewer lines. Effective January 1, 2012 pursuant to RO Resolution No. 11-007-CA, sewerage charge applies only to commercial and industrial customers connected to sewer lines.

Interest income is recognized as the interest accrues using the effective interest method.

When the Company provides construction or upgrade services, the consideration received or receivable is recognized at its fair value. The Company accounts for revenue and costs relating to operation services based on the percentage of completion (shown as “Revenue from rehabilitation works” and “Cost of rehabilitation works” accounts in the consolidated statement of income).

#### Cost and Expense Recognition

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or incurrence of liabilities that result in decrease in equity, other than those relating to distributions to equity participants. Expenses are recognized in the consolidated statement of income as these are incurred.

#### Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at inception date, whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

A reassessment is made after the inception of the lease only if one of the following applies:

- (a) There is a change in contractual terms, other than a renewal of or extension of the arrangement;
- (b) A renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- (c) There is a change in the determination of whether fulfillment is dependent on a specified asset; or
- (d) There is a substantial change to the asset.

Where reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment scenarios (a), (c) or (d) and at the date of renewal or extension period for scenario (b).

A lease where the lessor retains substantially all the risks and benefits of ownership of the asset is classified as an operating lease.

Operating lease payments are recognized as expense in the consolidated statement of income on a straight-line basis over the lease term.

#### Borrowing Costs

Borrowing costs are generally expensed as incurred. Borrowing costs are capitalized if they are directly attributable to the acquisition or construction of a qualifying asset. To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset shall be determined as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization shall be determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period shall not exceed the amount of borrowing costs incurred during that period.

Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Capitalization of borrowing costs ceases when all the activities necessary to prepare the asset for its intended use or sale are substantially complete. If the resulting carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized.

#### Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and fair value of consideration received in excess of par value are recognized as additional paid-in capital.

Treasury shares representing own equity instruments that are reacquired are recognized at cost and deducted from equity. No gain or loss is recognized in the consolidated statement of income on the purchase, sale, issuance or the cancellation of the Parent Company's own equity instruments.

Retained earnings represent the Company's accumulated earnings, net of dividends declared.

#### Value-Added Tax (VAT)

Revenues, expenses and assets are recognized net of the amount of VAT except: where the VAT incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the sales tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and receivables and payables that are stated with the amount of VAT included.

The net amount of current VAT recoverable from and payable to the tax authority is included as part of "Other current assets" and "Trade and other payables" accounts in the consolidated statements of financial position.

#### Income Taxes

*Current Income Tax.* Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the financial reporting date.

*Deferred Income Tax.* Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized. Deferred income tax, however, is not recognized when the deductible and taxable temporary differences arise from the initial recognition of asset or liability in a transaction that is not a business combination and, at the time of transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at

each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rate that is expected to apply to the period when the assets are realized or the liabilities are settled, based on the tax rates (and tax laws) that have been enacted or substantively enacted as at the reporting date.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and a reliable estimate can be made of the amount of the obligation. When the Company expects a provision to be reimbursed, such as under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

#### Pension Cost

The Parent Company has a funded, noncontributory defined benefit plan. The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Defined benefit costs comprise the following: (1) service cost; (2) net interest on the net defined benefit liability or asset; and (3) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Parent Company, nor can they be paid directly to the Parent Company. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

#### Long-term Employee Benefits

The Long Term Incentive Plan (LTIP) of the Parent Company (starting 2013) grants cash incentives to eligible employees of the Parent Company. Liability under the LTIP is determined using the projected unit credit method. Employee benefit costs include current service costs, interest cost, actuarial gains and losses, and past service costs. Past service costs and actuarial gains and losses are recognized immediately.

The long-term employee benefit liability comprise the present value of the defined benefit obligation (using discount rate based on government bonds) vested at the end of the reporting period.

#### Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable. Contingent assets are not recognized unless virtually certain.

#### Events After the Reporting Period

Post year-end events that provide additional information about the Company's position at the financial reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

#### Earnings per share (EPS)

Basic EPS is computed based on the weighted average number of outstanding shares and adjusted to give retroactive effect to any stock split during the year. There are no dilutive potential common shares outstanding that would require disclosure of diluted EPS in the consolidated statements of income.

---

### 3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent liabilities at the reporting date. In preparing the Company's consolidated financial statements, management has made its best estimates and judgments of certain amounts, giving due consideration to materiality. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the consolidated financial statements. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

*Fourth Rate Rebasing.* In September 2013, the MWSS released its resolutions on the rate rebasing adjustment for the rebasing period 2013 to 2017 reducing the Parent Company's 2012 average all-in tariff. The Parent Company has formally notified its objection and filed its Dispute Notice before the Appeals Panel. On January 5, 2015, Maynilad officially received the Appeals Panel's award dated December 29, 2014 (the "Award"). As at February 23, 2015, Maynilad is still awaiting the MWSS Board of Trustees to approve the 2015 Tariff Table showing the adjusted rates, following which it will cause the 2015 Tariff Table's publication in newspapers of general circulation. Maynilad should be able to implement the adjusted rates 15 days after such publication. As discussed in Note 1, Maynilad already wrote the Philippine Government, through the DOF, to call on the undertaking after the MWSS and RO's delayed approval of the adjusted rates. The consolidated financial statements do not include any adjustments that might result from the decision of the MWSS Board of Trustees and the DOF.

*Amortization of Service Concession Assets.* The Parent Company accounts for its concession arrangement with MWSS in accordance with IFRIC 12 under the Intangible Asset model as it receives the right (license) to charge users of public service.

Effective January 1, 2013, the Parent Company applied the UOP method of amortizing its SCA after management had determined that the UOP method of amortizing SCA is now the more appropriate method instead of using the straight-line basis given that the economic benefit of these assets are more closely aligned with billed volume, which the Parent Company can already estimate reliably. Prior to January 1, 2013, the Parent Company's SCA is amortized using the straight-line method over the term of the concession arrangement.

The financial effect of this change in amortization method is to decrease the amortization of service concession assets in 2013 by ₱467.7 million. In future years, the amortization expense is expected to decrease in the earlier period and increase in the later period of the concession agreement compared to straight-line method of amortization. Quantitative disclosure on future impact is not provided as it is impracticable to reliably estimate the difference in future amortization as the calculation of the UOP amortization is subject to other variables such as

additional capital expenditures and concession fees paid every year, re-estimation of projected billable volume and actual billed volume during the year. All of these variables are subject to changes on annual basis.

Service concession assets, net of accumulated amortization of ₱16.7 billion and ₱14.9 billion, amounted to ₱56.9 billion and ₱54.6 billion as at December 31, 2014 and 2013, respectively (see Note 8).

*Disputes with MWSS.* Pending resolution of the dispute between the Parent Company and MWSS on certain claims of MWSS, the disputed amount of ₱5.0 billion and ₱4.9 billion as at December 31, 2014 and 2013, respectively, is considered as contingent liability. Prior to 2012, no reversal of accrued interest payable was made pending resolution of the matter in accordance with the dispute requirements of the Transitional and Clarificatory Agreement (TCA). However, with the prescription of the TCA and in light of the Parent Company's current negotiation and outstanding offer of US\$14.0 million to fully settle the claim of MWSS, the Parent Company reversed the amount of accrued interest in excess of the US\$14.0 million settlement offer amounting to ₱378.1 million and charged to other income in 2012 (see Notes 8, 13 and 20).

*Operating Lease Commitments — Company as Lessee.* The Company has determined, based on the evaluation of the terms and conditions of the arrangements, that the significant risks and rewards for properties leased from third parties are retained by the lessors and accordingly, accounts for these lease contracts as operating leases.

Total rental expense amounted to ₱167.7 million, ₱158.9 million and ₱175.2 million in 2014, 2013 and 2012, respectively (see Note 23).

*Contingencies.* The Company is currently involved in various legal and administrative proceedings. The Company's estimate of the probable costs for the resolution of these claims has been developed in consultation with outside legal counsel handling defense in these matters and is based upon an analysis of potential results. The Company currently does not believe these proceedings will have a material adverse effect on the Company's financial position. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of strategies relating to these proceedings (see Notes 13 and 20).

#### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Fair Value of Service Concession Payable.* The determination of the cost of service concession payable requires management to make estimates and assumptions to determine the extent to which the Company receives a right or license to charge users of the public service. In making those estimates, management is required to determine a suitable discount rate to calculate the present value of these cash flows. While the Company believes that the assumptions used are reasonable and appropriate, these estimates and assumptions can materially affect the consolidated financial statements.

*Fair Values of Financial Assets and Financial Liabilities.* PFRS requires that certain financial assets and financial liabilities be carried at fair value, which requires the use of accounting estimates and judgments. While significant components of fair value measurement are determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates), the timing and amount

of changes in fair value would differ with the valuation methodology used. Any change in the fair value of these financial assets and financial liabilities would directly affect income and equity.

The fair values of financial assets and financial liabilities are set out in Note 26.

*Fair Value Measurement of Contingent Consideration.* Contingent consideration, resulting from business combinations, is valued at fair value at acquisition date as part of the business combination. Where the contingent consideration meets the definition of a derivative and, thus, a financial liability, it is subsequently remeasured to fair value at each reporting date. The determination of the fair value is based on discounted cash flows. The key assumptions take into consideration the probability of meeting each performance target and the discount factor.

*Recognition of Revenue and Cost.* The Company's revenue recognition policies require management to make use of estimates and assumptions that may affect the reported amount of revenue. The Company measures revenue from rehabilitation works at the fair value of the consideration received or receivable. The Company's revenue from rehabilitation works recognized based on the percentage of completion are measured principally on the basis of the estimated completion of a physical proportion of the contract works. Given that the Company has subcontracted the rehabilitation works to outside contractors (excluding the cost of some materials for some contractors), the recognized revenue from rehabilitation works substantially approximates the related cost.

*Estimated Billable Water Volume.* The Parent Company estimated the billable water volume, where the amortization of service concession assets is derived from, based on the period over which the Parent Company's concession agreement with MWSS is in force. The Parent Company reviews annually the billable water volume based on factors that include market conditions such as population growth and consumption, and the status of the Parent Company's projects and their impact on non-revenue water. It is possible that future results of operations could be materially affected by changes in the Parent Company's estimates brought about by changes in the aforementioned factors. A reduction in the projected billable water volume would increase amortization and decrease noncurrent assets. Service concession assets, net of accumulated amortization of ₱16.7 billion and ₱14.9 billion, amounted to ₱56.9 billion and ₱54.6 billion as at December 31, 2014 and 2013, respectively (see Note 8).

*Allowance for Doubtful Accounts.* The Company estimates the allowance for doubtful accounts related to the trade receivables based on two methods. The amounts calculated using each of these methods are combined to determine the total amount of allowance. First, the Company evaluates specific accounts that are considered individually significant for any objective evidence that certain customers are unable to meet their financial obligations. In these cases, the Company uses judgment, based on the best available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on third party credit reports and known market factors. The allowance provided is based on the difference between the present value of the receivables that the Company expects to collect, discounted at the receivables' original effective interest rate and the carrying amount of the receivable. This specific allowance is re-evaluated and adjusted as additional information received affects the amounts estimated. Second, if it is determined that no objective evidence of impairment exists for an individually assessed receivable, the receivable is included in a group of receivables with similar credit risk characteristics and is collectively assessed for impairment. The provision under collective assessment is based on historical collection, write-off, experience and change in customer payment terms. Impairment assessment is performed throughout the year.

The amount and timing of recorded expenses for any period would therefore differ based on the judgments or estimates made. Provision for doubtful accounts amounted to ₱0.4 million, ₱143.0 million and ₱134.0 million in 2014, 2013 and 2012, respectively. An increase in allowance for doubtful accounts would increase the Company's recorded expenses and decrease trade and other receivables. Trade and other receivables, net of allowance for doubtful accounts, amounted to ₱2.0 billion as at December 31, 2014 and 2013 (see Note 6).

*Determination of Impairment of AFS Financial Assets.* The Company determines that AFS financial assets are impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The Company determines that a decline in fair value of greater than 20% of cost is considered to be a significant decline and a decline for a period of more than 12 months is considered to be a prolonged decline. This determination of what is significant or prolonged requires judgment. In making this judgment, the Company evaluates, among other factors, the normal volatility in share price for quoted equities. In addition, AFS financial assets are considered impaired when the Company believes that future cash flows generated from the investment is expected to decline significantly. The Company's management makes significant estimates and assumptions on the future cash flows expected and the appropriate discount rate to determine if impairment exists. Impairment may also be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

Impairment loss recognized for AFS financial assets amounted to ₱100.2 million in 2014 and nil in 2013 and 2012. The carrying value of AFS financial assets are disclosed in Note 10.

*Estimated Useful Lives of Property and Equipment.* The useful life of each item of the Company's property and equipment is estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of practices of similar businesses, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any item of property and equipment would increase the recorded depreciation expense and decrease property and equipment.

There was no change in estimated useful lives of property and equipment in 2014 and 2013.

Property and equipment, net of accumulated depreciation and amortization of ₱1.4 billion and ₱1.2 billion, amounted to ₱809.7 million and ₱548.3 million as at December 31, 2014 and 2013, respectively (see Note 9).

*Deferred Tax Assets.* The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that sufficient taxable profit will be generated to allow all or part of the deferred tax assets to be utilized.

The Company recognized deferred tax assets on deductible temporary differences expected to reverse after the income tax holiday (see Note 21). The Company did not recognize deferred tax assets on deductible temporary differences that are expected to reverse during the income tax holiday period and on items where doubt exists as to the tax benefits they will bring in the future. Net deferred tax assets recognized amounted to ₱2.2 billion and ₱2.1 billion as at December 31, 2014 and 2013,

respectively (see Notes 2 and 16). Unrecognized deferred tax assets amounted to ₱1.2 billion and ₱2.0 billion as at December 31, 2014 and 2013, respectively (see Note 16).

The change in amortization method of the Parent Company's service concession assets starting 2013 from straight-line to UOP resulted in deferred tax asset write-off amounting to ₱469.5 million in 2012 as this would no longer be realized due to the lower amortization expense within the income tax holiday than previously projected (see Note 16).

*Deferred FCDA and Deferred Credits.* Under Amendment No. 1 of the Concession Agreement, the Parent Company is entitled to recover (refund) foreign exchange losses (gains) arising from MWSS loans and any concessionaire loans. For the unrealized foreign exchange losses, the Parent Company recognized deferred FCDA as an asset since this is a resource controlled by the Company as a result of past events and from which future economic benefits are expected to flow to the Parent Company. Unrealized foreign exchange gains, however, are presented as deferred credits and will be refunded to the customers.

In accordance with MWSS-RO Resolution No. 2009-069, the new base foreign exchange rate was changed from ₱51.86 to ₱48.04 effective May 4, 2009.

Deferred credits representing the net effect of unrealized foreign exchange gains on service concession obligation payable to MWSS, and restatement of foreign currency-denominated interest-bearing loans and related interest that are still refundable to the customers amounted to ₱620.9 million and ₱498.9 million as at December 31, 2014 and 2013, respectively.

In 2013, the Parent Company realized foreign exchange gain amounting to ₱977.7 million arising from the refinancing of dollar-denominated Corporate Notes (see Note 11). This resulted in a significant FCDA refund to the customers and subsequent reduction in deferred credits account. Such realized foreign exchange gain was fully refunded on June 30, 2014.

*Asset Impairment.* The Company assesses impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Company recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is computed using the value in use (VIU) approach. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs. Determining the recoverable amount of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets. While it is believed that the assumptions used in the estimation of fair values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable amounts and any resulting impairment loss could have a material adverse impact on the results of operations.

Noncurrent nonfinancial assets and AFS financial asset carried at cost and subject to impairment test when certain impairment indicators are present follow:

	2014	2013
Service concession assets (see Note 8)	<b>₱56,926,326</b>	₱54,560,728
Property and equipment (see Note 9)	<b>809,718</b>	548,272
Goodwill (see Note 4)	<b>288,082</b>	288,082
AFS financial assets (see Note 10)	<b>110,377</b>	210,584
<b>Total</b>	<b>₱58,134,503</b>	₱55,607,666

Impairment loss on the AFS financial asset amounting to ₱100.2 million was recognized in 2014.

*Computation of Pension Cost.* The cost of defined benefit pension plans and other post-employment benefits as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rate, turnover rate, mortality rate and salary increase rate. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. Turnover rate is based on a 3-year historical information of voluntary separation and resignation by plan members.

The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates for the specific country.

Pension liability amounted to ₱281.8 million and ₱192.9 million as at December 31, 2014 and 2013, respectively (see Note 17).

*Computation of Share-based Payment Transactions.* The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payments requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payments are disclosed in Note 14.

Equity based compensation expense presented as part of “Salaries, wages and benefits” account in consolidated statements of income amounted to nil, ₱2.8 million and ₱7.5 million in 2014, 2013 and 2012, respectively (see Note 14).

*Determination of Other Long Term Incentives Benefits.* The LTIP for key executives of MPIC and certain subsidiaries, including the Parent Company, was approved by the Executive Compensation Committee and the BOD of MPIC which is based on profit targets for the covered Performance Cycle. In addition, in 2013, the Parent Company has approved an LTIP for its managers and executives which is also based on profit targets for the covered Performance Cycle of 2013 to 2015. The cost of LTIP is determined using the projected unit credit method based on prevailing discount rates and profit targets. While management’s assumptions are believed to be reasonable and appropriate, significant differences in actual results or changes in assumptions may materially affect the Company’s other long-term incentive benefits.

Accrued LTIP amounted to ₱279.2 million and ₱193.7 million as at December 31, 2014 and 2013, respectively (see Notes 12 and 17). The total cost of the LTIP recognized by the Company presented as part of “Salaries, wages and benefits” account in the consolidated statements of income amounted to ₱130.9 million, ₱148.3 million and ₱22.8 million in 2014, 2013 and 2012, respectively.

*Amortization of Debt Issuance Cost.* As at December 31, 2012, the Parent Company had on-going negotiation for the refinancing on a clean basis of its outstanding Corporate Notes. Consequently, the amortization of capitalized debt issuance cost was accelerated in 2012 based on the revised expected cash flows. Related amortization of debt issuance costs amounted to ₱328.5 million (see Note 11). On March 22, 2013, the loan refinancing has been completed.

---

#### 4. Business Combination and Goodwill

The Company’s intention is to maintain and continue to develop a diverse set of infrastructure assets through its investments in water utilities. The Company is therefore committed to investing through acquisitions and strategic partnerships in prime infrastructure assets with the potential to provide synergies with its existing operations.

*Acquisition of Phil Hydro.* On August 3, 2012, the Parent Company, through a Share Purchase Agreement with a third party, acquired 100% ownership interest in Phil Hydro for a consideration of ₱595.0 million payable in tranches upon fulfillment and completion of certain conditions precedent. The Parent Company paid a portion of the consideration amounting to ₱210.0 million on August 8, 2012. In 2013, the Parent Company paid a portion of the consideration amounting to ₱195.4 million and was able to negotiate reduction in the purchase price by ₱68.1 million to cover for the seller’s failure to deliver certain documents and fulfill certain conditions precedent. In 2014, payments made for the last tranche of the purchase price amounted to ₱66.0 million. As at December 31, 2014 and 2013, the remaining unpaid purchase price amounted to ₱55.5 million and ₱121.5 million, respectively.

The purchase price was allocated to the assets and liabilities on the basis of fair values at the date of acquisition as follows:

	Final Fair Values
Assets:	
Cash and cash equivalents	₱2,552
Receivables	34,655
Other current assets	5,739
Service concession assets	394,143
Other noncurrent assets	2,908
	439,997
Liabilities:	
Accounts payable and other current liabilities	12,041
Other noncurrent liabilities	92,358
Interest-bearing loans	66,272
Deferred tax liability	30,458
	201,129
Total net identifiable assets	238,868
Goodwill arising from acquisition	288,082
Purchase consideration transferred	₱526,950

*Impairment Testing of Goodwill.* The goodwill arising from the acquisition of Phil Hydro represents the fair value of expected incremental economic benefits that the Parent Company expects to obtain. The impairment test of goodwill is based on VIU calculations that used the discounted cash flow model. The VIU was based on the cash flow projections on the most recent financial budgets and forecast of Phil Hydro. The length of the projections is up to 2035 based on the existing Bulk Water Supply Agreements. The discount rate applied was 8.6%, which was based on the weighted average cost of capital. Based on the impairment test, the Parent Company did not identify any impairment loss. With regard to the assessment of VIU, management believes that no reasonably possible change in any key assumptions would cause the carrying values of the units to materially exceed the recoverable amount.

---

## 5. Cash and Cash Equivalents

This account consists of:

	2014	2013
Cash on hand and in banks	<b>₱828,138</b>	₱660,530
Cash equivalents	<b>3,360,400</b>	2,203,875
	<b>₱4,188,538</b>	₱2,864,405

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are made for varying periods between one day and three months depending on the immediate cash requirements of the Company and earn interest at the respective short-term investment rates.

Short-term investments amounting to ₱2.9 billion and ₱3.6 billion as at December 31, 2014 and 2013, respectively, with original maturities of more than three months to one year are separately shown in the consolidated statements of financial position.

Interest income earned from cash in banks and short-term investments amounted to ₱81.3 million, ₱90.6 million and ₱154.9 million in 2014, 2013 and 2012, respectively.

---

## 6. Trade and Other Receivables

This account consists of receivables from:

	2014	2013
Customers:		
Residential	<b>₱1,958,371</b>	₱1,702,657
Semi-business	<b>199,060</b>	170,910
Commercial	<b>625,593</b>	544,845
Industrial	<b>130,567</b>	111,084
Bulk water supply	<b>29,937</b>	21,870
	<b>2,943,528</b>	2,551,366
Employees	<b>32,966</b>	43,274
Others	<b>340,027</b>	683,138
	<b>3,316,521</b>	3,277,778
Less allowance for doubtful accounts	<b>1,267,971</b>	1,267,613
	<b>₱2,048,550</b>	₱2,010,165

The classes of the Company’s receivables from customers are as follows:

- Residential - pertains to receivables arising from water and sewer service use for domestic purposes only.
- Semi-business - pertains to receivables arising from water and sewer service use for small businesses.
- Commercial - pertains to receivables arising from water and sewer service use for commercial purposes.
- Industrial - pertains to receivables arising from water and sewer service use for industrial purposes, including services for manufacturing.
- Bulk water supply - pertains to receivables arising from water service to water districts outside the West Service Area.

Receivables from customers and bulk water supply are non-interest bearing and generally have 60-day term.

Other receivables consist mainly of receivables from collecting agents normally received within 30 days and advances for construction and installation of water reticulation systems for subdivisions in the West Service Area payable on installment basis over a period of 3-5 years. Portion of advances for water reticulation systems expected to be collected beyond one year is presented as part of “Other noncurrent assets” account in the consolidated statements of financial position.

Phil Hydro entered into guarantee contracts with LGU Guarantee Corporation (LGUGC), a private credit guarantee institution, to secure 85% of the monthly billing obligations of Legazpi City Water District (LCWD) and Norzagaray Water District (NWD). The secured amount shall not exceed the outstanding amount of loans obtained by Phil Hydro for the respective projects (see Note 11).

The movements in the Company’s allowance for doubtful accounts follow:

<b>2014</b>						
	<b>Receivables from Customers</b>				<b>Other</b>	<b>Total</b>
	<b>Residential</b>	<b>Semi-business</b>	<b>Commercial</b>	<b>Industrial</b>	<b>Receivables</b>

## 7. Other Current Assets

This account consists of:

	2014	2013
Sinking fund (see Note 11)	<b>₱1,746,491</b>	₱1,638,544
Advances to contractors	<b>410,475</b>	261,226
Prepayments (see Note 23)	<b>159,880</b>	130,156
Input VAT	<b>158,908</b>	149,695
Deposits	<b>138,290</b>	123,100
Others	<b>60,587</b>	90,160
	<b>₱2,674,631</b>	₱2,392,881

Sinking fund represents the amount set aside to cover semi-annual principal and interest payment of loans, and unutilized proceeds from the US\$137.5 million loan drawdowns for the Metro Manila Wastewater Management Project maintained in a designated bank account (see Note 11).

Advances to contractors are normally applied within a year against progress billings.

Prepayments mainly pertain to insurance, premium bond, and taxes.

Deposits mainly consist of refundable rental deposits.

## 8. Service Concession Assets

The movements in this account are as follows:

	2014	2013
Cost:		
Balance at beginning of year	<b>₱69,463,373</b>	₱64,095,128
Additions	<b>4,170,046</b>	5,368,245
Balance at end of year	<b>73,633,419</b>	69,463,373
Accumulated amortization:		
Balance at beginning of year	<b>14,902,645</b>	13,337,001
Amortization	<b>1,804,448</b>	1,565,644
Balance at end of year	<b>16,707,093</b>	14,902,645
	<b>₱56,926,326</b>	₱54,560,728

Service concession assets consist of the present value of total estimated concession fee payments pursuant to the Concession Agreement and the costs of rehabilitation works incurred.

The aggregate Concession fee pursuant to the Concession Agreement is equal to the sum of the following:

- a. 90% of the aggregate peso equivalent due under any MWSS loan which has been disbursed prior to the Commencement Date, including MWSS loans for existing projects and the raw water conveyance component of the Umiray-Angat Transbasin Project (UATP), on the relevant payment date set forth on the pertinent schedule of the Concession Agreement;

- b. 90% of the aggregate peso equivalent due under any MWSS loan designated for the UATP which has not been disbursed prior to the Commencement Date on the relevant payment date set forth on the pertinent schedule of the Concession Agreement;
- c. 90% of the local component costs and cost overruns related to the UATP in accordance with the pertinent schedule of the Concession Agreement;
- d. 100% of the aggregate peso equivalent due under any MWSS loan designated for existing projects, which have not been disbursed prior to the Commencement Date and have been either awarded to third party bidders or been elected by the Parent Company for continuation in accordance with the pertinent sections of the Concession Agreement;
- e. 100% of the local component costs and cost overruns related to the existing projects in accordance with relevant schedule of the Concession Agreement; and
- f. Maintenance and operating expenditure (MOE) representing one-half of the annual budget for MWSS for that year, provided that such annual budget shall not exceed ₱200.0 million (as at 1997), subject to annual CPI adjustment.

Tranche B Concession Fees are additional concession fees being charged by MWSS to the Parent Company representing the cost of borrowings by MWSS as at December 2004. As at December 31, 2014 and 2013, the Parent Company had recognized and fully paid Tranche B Concession Fees of US\$36.9 million and the related accrued interest thereon (see Note 13).

Pursuant to the recommendation of the Receiver, the disputed amount being claimed by MWSS of additional Tranche B Concession Fees of US\$18.1 million is considered as contingent liability of the Parent Company, as discussed in Note 20.

The Parent Company recognized additional concession fees amounting to ₱4.9 million and ₱249.2 million in 2014 and 2013, respectively (see Note 13). These additional concession fees mainly pertain to UATP-related local component costs and overruns and the drawn portion of MWSS loans relating to new projects.

## 9. Property and Equipment

The rollforward analysis of this account follows:

	2014				
	Land and Land Improvements	Instrumentation, Tools and Other Equipment	Office Furniture, Fixtures and Equipment	Transportation Equipment	Total
<b>Cost</b>

As at December 31, 2014 and 2013, there were no capitalized borrowing costs.

## 10. AFS Financial Assets

This account pertains to the Company's investment in unquoted equity shares.

The movement in the AFS financial assets is as follows:

	2014	2013
Balance at beginning of year	<b>₱221,093</b>	₱10,509
Additional investment	-	210,584
Balance at end of year	<b>221,093</b>	221,093
Less allowance for impairment loss	<b>110,716</b>	10,509
	<b>₱110,377</b>	₱210,584

In 2013, the Parent Company acquired 10% ownership interest in Subic Water and Sewerage Co., Inc. (Subic Water). In 2014, the Company recognized impairment loss amounting to ₱100.2 million presented as part of "Other expenses - net" in the consolidated statement of income.

## 11. Interest-bearing Loans

This account consists of:

	2014	2013
₱21.2 billion Term Loan	<b>₱18,613,802</b>	₱20,305,965
₱5.0 billion Corporate Notes	<b>5,000,000</b>	5,000,000

Less unamortized debt issuance costs	<b>75,293</b>	81,888
	<b>24,201,411</b>	25,342,035
Less current portion	<b>1,692,163</b>	1,703,831
	<b>₱22,509,248</b>	₱23,638,204

₱21.2 billion Term Loan

*2008 Omnibus Notes Facility and Security Agreement (ONFSA)*

On June 30, 2008, the Parent Company entered into an Omnibus Notes Facility and Security Agreement (the 2008 ONFSA) with Banco de Oro Unibank, Inc. and Development Bank of the Philippines (Noteholders) for US\$365.0 million notes (“the Notes”) for the purpose of financing the capital expenditures and payment of advances from shareholders. The Notes are composed of Series 1 amounting to US\$240.0 million (₱11.0 billion) and Series 2 amounting to US\$125.0 million. Series 1 is a peso-denominated loan which consists of a fixed peso equivalent of US\$120.0 million (₱5.5 billion) fixed rate note and US\$120.0 million (₱5.5 billion) floating rate note. Series 2 is a US\$125.0 million floating rate dollar-denominated note.

*Series 1 Fixed and Floating Rate Note.* Bears interest of fixed and floating rate and is payable within ten years to commence at the end of the 36<sup>th</sup> month after the initial issue date.

Series 1 Fixed bears interest of 8.8173% per annum subject to review and renegotiation should the 10-Y PDST-F be equivalent to or higher than 8.2852% per annum. Series 1 Floater Rate Notes bears interest of 4.75% per annum or 6-month PDST-F plus 2% spread, whichever is higher.

*Series 2 Floating Rate Note.* Bears interest of LIBOR and CDS rate plus 2.0% spread per annum and is payable within ten years to commence at the end of the 36<sup>th</sup> month after the initial issue date.

*Debt Issuance Costs.* All legal, professional and registration fees incurred in relation to the availment of the US\$365.0 million Corporate Notes, totaling ₱451.8 million, were recognized starting July 2008. Debt issuance costs are amortized using the effective interest method. Amortization of debt issuance costs amounting to nil, ₱12.1 million and ₱378.5 million in 2014, 2013 and 2012, respectively, is presented as part of “Interest expense and other financing charges” account in the consolidated statements of income (see Notes 3 and 18).

*2011 ONFSA*

On March 23, 2011, the Parent Company entered into a ₱7.0 billion Omnibus Notes Facility and Security Agreement (the 2011 ONFSA) from various financing institutions for the purpose of capital expenditure financing. The loan was made available in two equal drawdowns, on March 30, 2011 and on September 30, 2011. The loan is payable in semi-annual installments within ten years to commence at the end of the 36<sup>th</sup> month after the initial issue date and bears an interest rate per annum equal to the higher of (i) the applicable benchmark rate plus 0.75% per annum, or (ii) 6.5% per annum. The benchmark rate shall be determined by reference to the PDST-F rate.

*Debt Issuance Costs.* All legal and professional fees incurred in relation to the debt, totaling ₱118.8 million, were capitalized in 2011. Debt issuance costs are amortized using the effective interest method. Amortization of debt issuance costs attributed to this loan, amounted to nil, ₱2.7 million and ₱10.6 million in 2014, 2013 and 2012, respectively, is presented as part of “Interest expense and other financing charges” account in the consolidated statements of income (see Note 18).

The Parent Company’s outstanding Corporate Notes were secured by a first ranking mortgage over all of the Parent Company’s mortgageable assets and an assignment of all rights, title and interest of the Parent Company to its assigned accounts, accounts receivable, project documents and performance guarantee with Banco De Oro Unibank, Inc. as collateral agent. The Corporate Notes were secured further by a third party mortgage of the Parent Company shares representing 40.9% of the outstanding shares of the Parent Company and a voting trust over 31.0% of the

outstanding shares of the Parent Company. The third party mortgage and voting trust over the Parent Company shares shall cease, terminate, and become void at such time that the Parent Company's nonrevenue water or NRW is reduced to 45%. As at December 31, 2011, the Parent Company had already breached the 45% threshold, and therefore, the condition for the release, cancellation and discharge of the mortgage lien over the mortgaged shares has been fulfilled to the satisfaction of the secured parties.

#### *Loan Refinancing*

On March 22, 2013, the Parent Company entered into several loan agreements for the refinancing of all of its existing loans under the aforementioned 2008 ONFSA and 2011 ONFSA (collectively referred to as "Corporate Notes"), whereby the Parent Company was granted a Term Loan Facility (the "Term Loan") in the aggregate amount of ₱21.2 billion. Under the new terms, the loans shall be payable in semi-annual installments within ten years to commence at the end of the 6<sup>th</sup> month after the initial issue date and bears an interest rate per annum equal to the higher of (i) the applicable benchmark rate plus 0.75% per annum, or (ii) 5.75% per annum. The benchmark rate shall be determined by reference to the PDST-F rate. The Term Loan is secured by a negative pledge. The change in the terms of the loan contracts was assessed as substantial modification of the Corporate Notes and thus, resulted to derecognition of the old loan and recognition of new financial liability.

All transaction costs incurred in relation to the loan refinancing totaling ₱748.5 million were charged to expense presented as part of "Interest expense and other financing charges" and "Other expense" accounts in the 2013 consolidated statement of income (see Note 18).

#### ₱5.0 Billion Corporate Notes

On April 29, 2013, the Parent Company entered into a Loan Agreement (Corporate Notes) with a local bank. The loan shall be payable in semi-annual installments within ten years to commence at the end of the 42<sup>nd</sup> month, and bears a fixed rate per annum equal to the higher of (i) the applicable benchmark rate plus 0.75% per annum, or (ii) 5.75% per annum. The benchmark rate shall be determined by reference to the PDST-F rate.

*Debt Issuance Costs.* All legal and professional fees incurred in relation to the debt, totaling ₱42.8 million, were capitalized in 2013. Debt issuance costs are amortized using the effective interest method. Amortization of debt issuance costs attributed to this loan amounting to ₱3.6 million and ₱2.5 million in 2014 and 2013, respectively, is presented as part of "Interest expense and other financing charges" account in the consolidated statements of income (see Note 18).

As at December 31, 2014 and 2013, the Term Loan and ₱5.0 Billion Corporate Notes have negative pledge collateral.

#### US\$137.5 million Loan

The World Bank ("WB"), through the Metro Manila Wastewater Management Project ("MWMP"), provided a US\$275.0 million loan to the Land Bank of the Philippines ("LBP") for relending at an equal share to the two Concessionaires of the MWSS namely, Maynilad and Manila Water. The MWMP is expected to finance investments in wastewater collection and treatment, and septage management in Metro Manila.

The loan will fund the following projects:

1. Rehabilitation of Ayala Alabang Sewage Treatment Plant (“STP”)
2. Talayan STP (part of the San Juan River Basin Project)
3. Valenzuela STP and associated wastewater conveyance system
4. Pasay STP and associated wastewater conveyance system
5. Muntinlupa STP and associated wastewater conveyance system
6. South Septage Treatment Plant

The WB and the LBP signed the Loan Agreement on May 31, 2012 while the Subsidiary Loan Agreement between LBP and Maynilad was executed on October 25, 2012.

The loan shall be payable in semi-annual installments within 25 years, inclusive of seven years grace period. The interest shall be paid semi-annually based on the same rate of interest payable by LBP under the WB Loan Agreement, plus fixed spread of 1.25% per annum.

Summary of transactions during the year is as follows:

	2014	2013
Balance at beginning of year	US\$1,462,215	US\$-
Amount received during the year	12,823,388	2,000,000
Bank charges	(70)	(15)
Net amount	14,285,533	1,999,985
Expenditures during the year	(9,423,911)	(537,770)
Balance at end of year	US\$4,861,622	US\$1,462,215

The US\$4.9 million and US\$1.5 million balance as at December 31, 2014 and 2013, respectively, represents the outstanding balance of LBP designated account No. 3404-031-936, under the account name MWMP - Category 2 - MWSI, and is presented as part of “Sinking fund” under “Other current assets” account in the consolidated statements of financial position (see Note 7).

The US\$14.8 million and US\$2.0 million cumulative drawn amount as at December 31, 2014 and 2013, respectively, is presented as part of the noncurrent portion of the interest-bearing loans.

The proceeds of the World Bank loan have been expended in accordance with the intended purposes as specified in the Loan Agreement.

*Debt Issuance Costs.* All legal and professional fees incurred in relation to the debt, totaling ₱42.8 million, were capitalized in 2013. Debt issuance costs are amortized using the effective interest method. Amortization of debt issuance costs attributed to this loan amounting to ₱3.0 million and ₱1.3 million in 2014 and 2013, respectively, is presented as part of “Interest expense and other financing charges” account in the consolidated statements of income (see Note 18).

The movements in the balance of unamortized debt issuance costs related to all interest-bearing loans are as follows:

	2014	2013
Balance at beginning of year	₱81,888	₱14,819
Additions during the year	-	85,622
Amortization during the year (see Note 18)	(6,595)	(18,553)
	₱75,293	₱81,888

The repayments of loans based on existing terms are scheduled as follows:

Year	In Original Currency		Total Peso Equivalent*
	US Dollar-denominated*	Peso Loans	
		<i>(In Millions)</i>	
2015	\$-	₱1,692.16	₱1,692.16
2016	-	1,742.16	1,742.16
2017	-	1,792.16	1,792.16
2018	-	1,792.16	1,792.16
2019 onwards	14.82	16,595.16	17,258.06
	\$14.82	₱23,613.80	₱24,276.70

\* Translated using the December 31, 2014 exchange rate of ₱44.72:US\$1.

*Covenants.* The loan agreements contain, among others, covenants regarding the maintenance of certain financial ratios such as debt-to-equity ratio and debt service coverage ratio, and maintenance of debt service reserve account (see Note 7). As at December 31, 2014 and 2013, the Parent Company has complied with these covenants.

Under the terms of the loan agreements, the Parent Company may, at its option and without premium and penalty, redeem the Corporate Notes in whole or in part, subject to the conditions stipulated in the agreements. The embedded early redemption and prepayment options are clearly and closely related to the host debt contract, and thus, do not require to be bifurcated and accounted for separately in the host contract.

#### Peso-denominated Loan of Phil Hydro

Phil Hydro obtained loans from local banks amounting to ₱70.0 million and ₱105.0 million in 2009 and 2007, respectively, to finance its capital expenditures in Legazpi City and Norzagaray, Bulacan.

Both loans were payable in quarterly installments over seven years from the respective dates of availment. The loan obtained in 2009 was subject to interest rate based on Philippine Dealing System Treasury - Fixing (PDST-F) rates plus a certain spread. On the other hand, the loan obtained in 2007 was subject to repricing every quarter.

*Covenants.* Among the significant covenants were as follows: (1) the prohibition against declaration or payment of dividends to Phil Hydro's stockholders (other than dividends payable solely in shares of its capital stock) if payment of any sum due to the lenders is in arrears or it would affect negatively Phil Hydro's financial condition. As at December 31, 2014 and 2013, Phil Hydro has no payments in arrears due to its lenders; (2) maintenance of current ratio of at least 1:1 and debt-to-equity ratio not greater than 2.5:1; and (3) non-granting of loans or advances to any of its directors, officers, and/or stockholders which, in the aggregate, would exceed 10% of its net worth at any time.

With the amendment of the current ratio to 0.27:1 in 2013, Phil Hydro was able to comply with all the covenants as at December 31, 2014 and 2013.

The loans were secured by the assigned guarantee coverage of the Company at 85% of the customers' monthly billing obligation but not to exceed ₱75.0 million and ₱150.0 million for the loans obtained in 2009 and 2007, respectively (see Note 6). In addition to the above guarantee, the loan obtained in 2007 was secured by certain properties located in Legazpi City (see Note 8). On the other hand, the loan obtained in 2009 was secured by a continuing surety made by Phil Hydro's former shareholder.

The loan obtained in 2007 has been fully paid in April 2013 while the loan obtained in 2009 was preterminated in April 2014.

---

## 12. Trade and Other Payables

This account consists of:

	2014	2013
Trade payables	<b>₱1,929,602</b>	₱2,513,341
Accrued construction costs (see Note 15)	<b>2,377,168</b>	4,640,469
Due to related party (see Note 15)	<b>1,900</b>	1,900
Other accrued expenses (see Note 17)	<b>6,025,050</b>	5,070,608
	<b>₱10,333,720</b>	₱12,226,318

Trade and other payables are non-interest bearing and are normally settled within one year.

Trade payables include liabilities relating to assets held in trust (see Note 24) used in the Company's operations amounting to ₱97.3 million as at December 31, 2014 and 2013.

Other accrued expenses mainly consist of provisions, salaries, wages and benefits, contracted services and interest payable to the banks. Details of provisions required by PAS 37 are not disclosed as these may prejudice the Company's positions in relation to the cases pending before the courts or quasi-judicial bodies.

---

## 13. Service Concession Obligation Payable to MWSS

This account consists of:

	2014	2013
Concession fees payable (see Note 8)	<b>₱7,528,126</b>	₱8,262,856
Accrued interest	<b>607,217</b>	607,217
	<b>8,135,343</b>	8,870,073
Less current portion	<b>1,094,378</b>	954,706
	<b>₱7,040,965</b>	₱7,915,367

### Disputes with MWSS

In prior years, the Parent Company has been contesting certain charges billed by MWSS relating to: (a) the basis of the computation of interest; (b) MWSS cost of borrowings; and (c) additional penalties. Consequently, the Parent Company has not provided for these additional charges. These disputed charges have been reflected by virtue of the Debt and Capital Restructuring Agreement (DCRA) entered into in 2005. Accordingly, the Parent Company has recognized these additional charges, referred to as Tranche B Concession Fees in the DCRA, amounting to US\$30.1 million. As discussed in Note 8, the Receiver determined an additional amount of Tranche B Concession Fees of US\$6.8 million. As at December 31, 2014 and 2013, the Parent Company had recognized Tranche B Concession Fees of US\$36.9 million (see Note 8).

The Parent Company reconciled its liability to MWSS with the confirmation and billings of MWSS. The difference between the amount confirmed by MWSS and the amount recognized by the Parent Company amounted to ₱5.0 billion and ₱4.9 billion as at December 31, 2014 and 2013, respectively. The difference mainly pertains to disputed claims of MWSS consisting of additional Tranche B Concession Fees (see Note 8), borrowing cost and interest penalty under the Concession Agreement (prior to the DCRA). The Parent Company's position on these charges is consistent with the Receiver's recommendation which was upheld by the Rehabilitation Court (see Notes 8 and 20).

Following the issuance of the Rehabilitation Court's Order on December 19, 2007 disallowing the MWSS' disputed claims and the termination of the Parent Company's rehabilitation proceedings, the Parent Company and MWSS sought to resolve the matter in accordance with the dispute resolution requirements of the TCA.

Prior to the DCRA, the Parent Company has accrued interest on its payable to MWSS based on the terms of the Concession Agreement, which was disputed by the Parent Company before the Rehabilitation Court. These already amounted to ₱985.3 million as at December 31, 2011 and have been charged to interest expense in prior years. The Parent Company maintains that the accrued interest on its payable to MWSS has been adequately replaced by the Tranche B Concession Fees discussed above. The Parent Company's position is consistent with the Receiver's recommendation which was upheld by the Rehabilitation Court (see Notes 8 and 20). With the prescription of the TCA and in light of the Parent Company's current negotiation and outstanding offer of US\$14.0 million to fully settle the claim of MWSS, the Parent Company reversed the amount of accrued interest in excess of the US\$14.0 million settlement offer amounting to ₱378.1 million and charged to other income in 2012. The remaining balance of ₱607.2 million as at December 31, 2014 and 2013, which pertains to the disputed interest penalty under the Concession Agreement prior to DCRA, has remained in the books pending resolution of the remaining disputed claims of MWSS.

The schedule of undiscounted estimated future concession fee payments, based on the term of the Concession Agreement, is as follows:

Year	In Original Currency		Total Peso Equivalent*
	Foreign Currency Loans (Translated to US\$)*	Peso Loans/ Project Local Support	
		<i>(In Millions)</i>	
2015	\$15.6	₱803.5	₱1,500.8
2016	16.5	529.7	1,266.1
2017	14.2	518.9	1,155.2
2018	14.2	537.0	1,172.2
2019-2037	73.0	10,218.2	13,484.6
	\$133.5	₱12,607.3	₱18,578.9

\* Translated using the December 31, 2014 exchange rate of ₱44.72:US\$1.

Additional concession fee liability relating to the extension of the Concession Agreement (see Note 1) is only determinable upon loan drawdown of MWSS and the actual construction of the related concession projects.

14. **Equity**

- a. The Parent Company's authorized and issued shares as at December 31, 2014 and 2013 are presented below:

	Number of Shares	
	2014	2013
Authorized and issued - ₱1,000 par value		
Common shares at beginning of year		
Class A	4,222,482	3,686,393
Class B	236,000	236,000
ESOP	88,500	88,500
	<b>4,546,982</b>	4,010,893
Increase of common shares		
Class A	-	536,089
Class B	-	-
ESOP	-	-
	-	536,089
Common shares at end of year		
Class A	4,222,482	4,222,482
Class B	236,000	236,000
ESOP	88,500	88,500
	<b>4,546,982</b>	4,546,982

Class A shares, comprising sixty percent (60%) of the authorized common shares, may only be subscribed by Filipino citizens or corporations or associations organized under the laws of the Philippines with at least sixty percent (60%) of the capital owned by Filipino citizens.

Class B shares, comprising forty percent (40%) of the authorized common shares, may be subscribed by, transferred to and owned by either Filipino citizens or by aliens.

On January 31, 2013, the SEC approved the Parent Company's application for the increase in its authorized capital from ₱4.0 billion to ₱4.5 billion.

- b. **ESOP**

The employees of the Parent Company are allowed equity participation of up to six percent (6%) of the issued and outstanding capital stock of the Parent Company upon the effective date of the increase in authorized capital stock of the Parent Company pursuant to and in accordance with the provisions of Clause 2.6 of the DCRA. For this purpose, a series of 88,500,000 nonvoting convertible redeemable shares (ESOP Shares) was created from common Class A shares as reflected in the Parent Company's amended Articles of Incorporation. In 2008, the ESOP shares were effectively reduced to 88,500 shares due to change in par value from ₱1 to ₱1,000. The ESOP shares have no voting rights, except for those provided under Section 6 of the Corporation Code and have no pre-emptive rights to purchase or subscribe to future or additional issuances or disposition of shares of the Parent Company.

Within thirty (30) days after the earlier of (i) the end of the fifth year from the creation of the ESOP Shares, and (ii) the listing date for common shares in a recognized Philippine Stock Exchange, the Parent Company may redeem the ESOP shares at a redemption ratio equal to

one common share for every ESOP share held and such common shares so exchanged shall have the same rights and privileges as all other common shares.

Each ESOP Share will be convertible, at the option of the holder thereof, at any time during the period commencing the earlier of (i) the end of the fifth year from the creation of the ESOP Shares; or (ii) the listing date for common shares in a recognized Philippine Stock Exchange into one fully-paid and non-assessable common share. Such common share shall have the same rights and privileges as all other common shares. Conversion of the ESOP Share may be effected by surrendering the certificates representing such shares to be converted to the Parent Company at the Parent Company's principal office or at such other office or offices as the BOD may designate, and a duly signed and completed notice of conversion in such form as may from time to time be specified by the Parent Company (a "Conversion Notice"), together with such evidence as the Parent Company may reasonably require to prove the title of the person exercising such right. A Conversion Notice once given may not be withdrawn without the consent in writing of the Parent Company.

In 2012, ESOP shares reacquired by the Parent Company from its resigned employees amounting to ₱3.2 million were presented as treasury shares.

In 2012, the Board and shareholders of the Parent Company approved the amendment of its Articles of Incorporation to allow for the reissuance of ESOP shares that have been bought back by the Parent Company from separated employees. Upon approval by the SEC of the amendment on January 31, 2013, said ESOP shares were subsequently reissued to all qualified employees of the Parent Company.

In 2014, ESOP shares reacquired by the Company from employees who availed of the Special Opportunity Program (SOP) amounting to ₱94.4 million were presented as part of "Treasury shares" account shown under the equity section of the consolidated statements of financial position (see Note 17).

c. Dividends

On June 25, 2012, the Parent Company's BOD set and approved the declaration of cash dividends of ₱499.5 per common share amounting to ₱2.0 billion. Payments were made on June 29, 2012.

On February 13, 2013, Parent Company's BOD set and approved the declaration of cash dividends of ₱2,841.32 per common share amounting to ₱11.4 billion to all shareholders of record as at February 4, 2013. Payments were made in tranches from February 13, 2013 up to April 5, 2013.

On June 24, 2013, during the regular meeting, the Parent Company's BOD set and approved the declaration of cash dividends of ₱241.92 per common share amounting to ₱1.1 billion to all shareholders of record as at June 24, 2013. Payments were made in tranches from July 22, 2013 up to September 27, 2013.

On November 25, 2013, during the regular meeting, the Parent Company's BOD set and approved the declaration of cash dividends of ₱219.93 per common share amounting to ₱1.0 billion to all shareholders of record as at November 25, 2013. Payments were made in tranches from December 10, 2013 to 26, 2013.

On February 24, 2014, during the regular meeting, the Parent Company's BOD set and approved the declaration of cash dividends of ₱220.01 per common share amounting to ₱1.0 billion to all shareholders of record as at February 24, 2014. Payments were made in tranches from April 2, 2014 to June 25, 2014.

d. Appropriation of Retained Earnings

On November 26, 2012, the Parent Company's BOD approved the appropriation of ₱10.2 billion for distribution of cash dividends to its stockholders. On February 13, 2013, the BOD reversed the ₱2.0 billion previously appropriated for capital expenditures and declared cash dividends amounting to ₱11.4 billion.

On November 25, 2013, the Parent Company's BOD approved the appropriation of its retained earnings amounting to ₱4.0 billion for various water and sewerage projects expected to be implemented in the next two years.

e. Equity Adjustments

The Parent Company has issued and redeemed preferred shares in 2008. Foreign exchange fluctuation from date of issuance of the preferred shares to the date of notice of redemption is issued, amounting to ₱351.0 million, is recognized as part of "Other equity adjustments" account shown under the equity section of the consolidated statements of financial position.

*Share-based Payment*

On June 24, 2007, the shareholders of MPIC approved a share option scheme (the Plan) under which MPIC's directors may, at their discretion, invite executives of MPIC upon the regularization of employment of eligible executives, to take up share option of MPIC to obtain an ownership interest in MPIC and for the purpose of long-term employment motivation. The scheme became effective on June 14, 2007 and is valid for 10 years. An amended plan was approved by the stockholders on February 20, 2009.

As amended, the overall limit on the number of shares that may be issued upon exercise of all options to be granted and yet to be exercised under the Plan must not exceed 5.0% of the shares in issue from time to time.

The exercise price in relation to each option shall be determined by the Parent Company's Compensation Committee, but shall not be lower than the highest of: (i) the closing price of the shares for one or more board lots of such shares on the PSE on the option offer date; (ii) the average closing price of the shares for one or more board lots of such shares on the PSE for the five business days on which dealings in the shares are made immediately preceding the option offer date; and (iii) the par value of the shares.

MPIC allocated and set aside stock options relating to an additional 145,000,000 common shares, of which, (a) 94,300,000 common shares were granted to its new directors and senior management officers, as well as members of the management committee of certain MPIC subsidiaries (includes 15,200,000 common shares granted to officers of the Parent Company) at the exercise price of ₱2.73 per common share on July 2, 2010 and (b) another 10,000,000 common shares were granted at the exercise price of ₱3.50 on December 21, 2010 to officers of the Parent Company.

On March 8, 2011, 1,000,000 common shares were granted at the exercise price of ₱3.53 to senior management of the Parent Company.

The weighted average remaining term to expiry for the share options outstanding as at December 31, 2014 and 2013 as follows:

	2014	2013
	<i>(In Years)</i>	
Second grant	<b>0.5</b>	1.5
Third grant	<b>1.1</b>	2.1

The fair value of the options granted is estimated at the date of grant using Black-Scholes-Merton formula, taking into account the terms and conditions upon which the options were granted. The following tables list the inputs to the model used for the ESOP in 2014 and 2013:

	Grant dated July 2, 2010		
	30.0% vesting on July 2, 2011	35.0% vesting on July 2, 2012	35.0% vesting on July 2, 2013
Spot price	₱2.65	₱2.65	₱2.65
Exercise price	₱2.73	₱2.73	₱2.73
Risk-free rate	4.61%	5.21%	5.67%
Expected volatility*	69.27%	67.52%	76.60%
Term to vesting (in days)	365	731	1,096
	Grant dated December 21, 2010		
	30.0% vesting on August 1, 2011	35.0% vesting on August 1, 2012	35.0% vesting on August 1, 2013
Spot price	₱3.47	₱3.47	₱3.47
Exercise price	₱3.50	₱3.50	₱3.50
Risk-free rate	1.62%	2.83%	3.73%
Expected volatility*	46.62%	68.23%	72.82%
Term to vesting (in days)	223	589	954
	Grant dated March 8, 2011		
	30.0% vesting on March 8, 2012	35.0% vesting on March 8, 2013	35.0% vesting on March 8, 2014
Spot price	₱3.53	₱3.53	₱3.53
Exercise price	₱3.53	₱3.53	₱3.53
Risk-free rate	2.56%	4.38%	5.01%
Expected volatility*	39.32%	61.39%	64.42%
Term to vesting (in days)	366	731	1,096
Call price	₱0.58	₱1.28	₱1.62

*\*The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.*

Starting in 2012, no additional stock option activity was received from MPIC.

Stock options expense recognized by the Parent Company under “Salaries, wages and benefits” account in the consolidated statements of income amounted to nil, ₱2.8 million and ₱7.5 million in 2014, 2013 and 2012, respectively.

Carrying value of the ESOP recognized under “Other equity adjustments” in the equity section of the consolidated statements of financial position amounted to ₱41.8 million as at December 31, 2014 and 2013.

## 15. Related Party Transactions

Parties are considered to be related if one party has the ability to control, directly or indirectly, the other party or exercise influence over the other party in making financial and operating decisions. Parties are considered to be related if they are subject to common control or common significant influence.

Category	Year	Amount/ Volume of Transactions	Outstanding Balance	Terms	Conditions
<i>Affiliate</i>					
<b>DM Consunji, Inc.</b>					
Construction costs (see Note 12)	2014 2013	₱583.2 million 504.5 million	₱1.9 million 1.9 million	Noninterest-bearing, settlement in cash and payable on demand	Unsecured

### Terms and Conditions of Transactions with Related Parties

The outstanding transactions with related parties are made at normal market prices. Outstanding balances at year-end are unsecured, interest-free, settlement occurs in cash and payable on demand.

Total compensation and benefits of key management personnel of the Company consist of:

	2014	2013	2012
Compensation	₱154,325	₱142,051	₱131,763
Pension costs	9,597	8,176	7,444
Short-term benefits	7,823	7,580	6,922
	₱171,745	₱157,807	₱146,129

## 16. Income Taxes

The Company recognized deferred taxes on deductible temporary differences expected to reverse after the income tax holiday (ITH) period (see Note 21). The components of the net deferred tax assets of the Company as at December 31, 2014 and 2013 shown in the consolidated statements of financial position are as follows:

	2014	2013
Service concession assets - net	₱1,001,395	₱1,304,894
Accrued expenses	947,930	610,569
Unamortized debt issuance costs	119,280	119,280
Pension liability and unamortized past service cost	70,080	38,254
Unearned revenue	21,643	—
Allowance for doubtful accounts	401	—
	₱2,160,729	₱2,072,997

Deferred tax asset written off due to the Company’s change in method of amortization of service concession assets amounted to ₱469.5 million in 2012 (see Note 3).

The Company has the following deductible temporary differences for which no deferred tax assets have been recognized since these are expected to reverse during the ITH period or management believes that it is not probable that these will be realized in the near future.

	2014	2013
Service concession assets - net	<b>₱1,781,429</b>	₱3,082,513
Allowance for doubtful accounts	<b>1,266,636</b>	1,266,636
Accretion of financial liabilities	<b>490,700</b>	1,052,144
Accrued expenses	<b>364,245</b>	772,364
Allowance for inventory obsolescence	<b>77,764</b>	-
Unamortized debt issuance costs	<b>54,842</b>	109,683
Impairment loss on AFS financial assets	<b>30,062</b>	-
Pension liability and unamortized past service cost	<b>13,859</b>	110,008
LTIP	-	148,297
	<b>₱4,079,537</b>	<b>₱6,541,645</b>

Service concession assets consist of concession fees and property, plant and equipment. For tax purposes, concession fees are amortized using UOP method while property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives or remaining concession period whichever is shorter.

On December 16, 2009, the BOI released the Certificate of Registration certifying 6-year income tax holiday incentive up to 2015 for Bulk Water Supply and Distribution Projects pertaining to the La Mesa Treatment Plants 1 and 2, while up to 2016 for Bulk Water Supply and Distribution Projects in Putatan, Muntinlupa (see Note 21).

Provision for current income tax in 2014 and 2013 represents the total of the regular corporate income tax on Phil Hydro's net taxable income and the Parent Company's miscellaneous income not covered by the ITH (see Note 21).

The reconciliation of provision for income tax computed at the statutory income tax rate to provision for income (benefit from) tax as shown in the consolidated statements of income is summarized as follows:

	2014	2013	2012
Income tax at statutory tax rate of 30%	<b>₱2,467,385</b>	₱1,958,782	₱1,951,598
Add (deduct) the tax effects of:			
Net taxable income under ITH (see Note 21)	<b>(2,077,981)</b>	(1,806,223)	(1,889,863)
Change in unrecognized net deferred tax assets and others	<b>(380,601)</b>	(502,751)	(123,833)
Interest income already subjected to final tax	<b>(24,385)</b>	(27,172)	(46,470)
Other nondeductible items and others	<b>(15,088)</b>	(29,578)	234,602
Provision for (benefit from) income tax	<b>(₱30,670)</b>	(₱406,942)	₱126,034

---

## 17. Employee Benefits

### MPIC's LTIP

On December 16, 2010, MPIC's BOD approved, in principle, the broad outline of MPIC's strategic plans for 2010 to 2012 focusing on the development of new revenue streams to drive future growth while protecting the existing core business. To ensure the proper execution of the three-year plan, particularly with respect to the manpower resources being committed to such plans, the 2010 to 2012 LTIP, upon endorsement of the Compensation Committee, was approved by the BOD to cover the period from January 1, 2010 to December 31, 2012, or the 2010 to 2012 Performance Cycle. The payment under the 2010 to 2012 LTIP is intended to be made at the end of the 2010 to 2012 Performance Cycle (without interim payments) and contingent upon the achievement of an approved target core income of the Parent Company by the end of the 2010 to 2012 Performance Cycle.

Total amount of LTIP under these plans is fixed upon achievement of the target Core Income and is not affected by changes in future salaries of the employees covered. The liability of the 2010 to 2012 LTIP was determined using the projected unit credit method. The long term employee benefit liability comprises the present value of the defined benefit obligation (using discount rate based on government bonds) at the end of the reporting period.

The total cost of the LTIP recognized by the Parent Company in 2012 presented as part of "Salaries, wages and benefits" amounted to ₱22.8 million, of which, ₱5.7 million was recognized under "Other equity adjustments" in the equity section of the consolidated statements of financial position representing MPIC's share in the LTIP cost of the Parent Company as per LTIP Plan. As at December 31, 2013, unpaid balance of LTIP amounted to ₱45.6 million (see Note 12). Such amount has been paid in 2014.

### Parent Company's LTIP

The Parent Company has approved an LTIP for its managers and executives which is also based on profit targets for the covered Performance Cycle of 2013 to 2015.

The total cost of the LTIP recognized by the Company in 2014 and 2013 which is presented as part of "Salaries, wages and benefits" account in the consolidated statements of income amounted to ₱130.9 million and ₱148.3 million, respectively. Accrued LTIP as at December 31, 2014 and 2013 amounted to ₱279.2 million and ₱148.3 million, respectively, and were presented as part of "Other noncurrent liabilities" account in the consolidated statements of financial position.

### Pension Plan

#### *Maynilad*

The Parent Company has a funded, noncontributory and actuarially computed pension plan covering substantially all of its employees. The benefits are based on years of service and compensation during the last year of employment.

In line with its strategic goal to improve operational efficiency, the Company offered a Redundancy and Right-Sizing Program in 2014. The redundancy program offered a separation package based on the number of years, or fractions thereof, on a pro-rated basis, of service with the Company plus monetary equivalent of some benefits. This resulted to a curtailment gain of ₱257.3 million.

Changes in net defined benefit liability of funded funds in 2014 are as follows:

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liability
At December 31, 2013	₱998,362	₱805,463	₱192,899
Net benefit cost in the consolidated statement of income:			
Current service cost	87,799	-	87,799
Curtailment gain	(257,341)	-	(257,341)
Net interest	46,316	32,680	13,636
	<b>875,136</b>	<b>838,143</b>	<b>36,993</b>
Benefits paid	(2,854)	(2,854)	-
Settlements	-	(262,961)	262,961
Remeasurements in other comprehensive income:			
Interest income (excluding amount included in net interest)	-	39,999	(39,999)
Actuarial changes arising from changes in financial assumptions	21,082	-	21,082
	<b>21,082</b>	<b>39,999</b>	<b>(18,917)</b>
At December 31, 2014	<b>₱893,364</b>	<b>₱612,327</b>	<b>₱281,037</b>

Changes in net defined benefit liability of funded funds in 2013 are as follows:

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liability
At January 1, 2013	₱1,008,747	₱768,443	₱240,304
Net benefit cost in the consolidated statement of income:			
Current service cost	103,139	-	103,139
Net interest	60,519	46,318	14,201
	1,172,405	814,761	357,644
Benefits paid	(12,692)	(12,692)	-
Remeasurements in other comprehensive income:			
Interest income (excluding amount included in net interest)	-	3,394	(3,394)
Actuarial changes arising from changes in financial assumptions	(161,351)	-	(161,351)
	(161,351)	3,394	(164,745)
At December 31, 2013	₱998,362	₱805,463	₱192,899

The maximum economic benefit available is a combination of expected refunds from the plan and reductions in future contributions.

The fair value of plan assets by each class as at the end of the reporting period are as follows:

	2014	2013
Investments in:		
Government securities	<b>₱304,401</b>	₱387,994
Equity securities	<b>268,743</b>	306,843
Unit trust funds	<b>16,058</b>	21,150
Loans/notes receivable	<b>2,980</b>	2,990
Cash and cash equivalents	<b>2,117</b>	23,691
Receivables and others	<b>18,028</b>	62,795
	<b>₱612,327</b>	₱805,463

The plan asset's carrying amount approximates its fair value since these are short-term in nature or marked-to-market. All equity and debt instruments held have quoted prices in active market. The remaining plan assets do not have quoted market prices in active market.

The plan assets have diverse investments and do not have any concentration risk.

As at December 31, 2014, the plan assets consist of the following:

- Investments in government securities consist primarily of fixed-rate treasury notes and retail treasury bonds that bear interest ranging from 2.88% to 11.14% per annum and have maturities from 2015 to 2037.
- Investments in equity securities are composed of investment in shares of various listed entities. The carrying amounts of investments in equity securities also approximate their fair values since they are marked-to-market.
- Unit trust funds include mutual funds invested in quoted shares.
- Loans and notes receivables include unsecured fixed-rate notes of a related party and unsecured notes of an unaffiliated company. The notes bear interest ranging from 6.26% to 6.73%.
- Cash and cash equivalents include regular savings and time deposits, which bear interest ranging from 1.25% to 5.50% per annum.
- Receivables and others include certificate of deposit with a term of 7 years and bear interest at 5.25%.

The cost of defined benefit pension plans and other post-employment benefits as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used in determining pension and post-employment benefit obligations for the defined benefit plans are shown below:

	2014	2013
Discount rate	<b>4.43%</b>	4.69%
Salary increase rate	<b>4.00%</b>	4.00%

In 2014, the sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as at the end of the reporting period, assuming all other assumptions were held constant:

	Increase (decrease) in Basis Points	Amount
Discount rate	100	(₱83,448)
	(100)	99,008
Salary increase rate	100	93,842
	(100)	(80,750)
Turnover rate	100	(36,373)
	(100)	17,341

Shown below are the maturity analyses of the undiscounted benefit payments:

	2014		Total
	Normal Retirement	Other than Normal Retirement	
Less than one year	₱25,317	₱6,915	₱32,232
More than one year to five years	185,228	44,609	229,837
More than five years to 10 years	723,912	72,821	796,733
More than 10 years to 15 years	443,206	67,998	511,204
More than 15 years to 20 years	168,186	60,300	228,486
More than 20 years to 25 years	486,331	82,418	568,749
More than 25 years	2,396,110	180,044	2,576,154
	<b>₱4,428,290</b>	<b>₱515,105</b>	<b>₱4,943,395</b>

	2013		Total
	Normal Retirement	Other than Normal Retirement	
Less than one year	₱17,535	₱8,311	₱25,846
More than one year to five years	366,992	66,286	433,278
More than five years to 10 years	868,730	81,795	950,525
More than 10 years to 15 years	503,317	69,317	572,634
More than 15 years to 20 years	173,815	55,783	229,598
More than 20 years to 25 years	482,069	78,031	560,100
More than 25 years	2,138,410	156,126	2,294,536
	<b>₱4,550,868</b>	<b>₱515,649</b>	<b>₱5,066,517</b>

There are no expected contributions to the defined benefit pension plan in 2015.

*Phil Hydro*

Phil Hydro recognized pension cost amounting to ₱0.8 million which is presented as part of “Salaries, wages and benefits” account in the 2014 consolidated statement of income determined in accordance with Republic Act 7641.

## 18. Interest Expense and Other Financing Charges

	2014	2013	2012
Bank loans (see Note 11)	<b>₱1,453,080</b>	₱1,377,285	₱1,385,240
Accretion on service concession obligation payable to MWSS (see Note 13)	<b>696,904</b>	716,605	707,524
Accretion on financial liabilities	<b>6,897</b>	17,133	12,564
Amortization of debt issuance costs (see Note 11)	<b>6,595</b>	18,553	389,085
Loan refinancing costs	-	441,375	-
	<b>₱2,163,476</b>	₱2,570,951	₱2,494,413

## 19. Basic/Diluted Earnings Per Share

	2014	2013	2012
Net income (a)	<b>₱8,255,288</b>	₱6,936,214	₱6,379,293
Weighted average number of shares at beginning of year	<b>4,472,762</b>	4,004,032	4,010,893
Add weighted average number of additional issuances (see Note 14)	-	469,078	-
Less weighted average number of treasury shares (see Note 14)	<b>(12,334)</b>	(348)	(6,861)
Weighted average number of shares at end of year (b)	<b>4,460,428</b>	4,472,762	4,004,032
Basic/Diluted Earnings per share (a/b)	<b>₱1,850.78</b>	₱1,550.77	₱1,593.22

The Company's basic and diluted earnings per share are the same as the dilutive effect of potential common shares from share-based payments have no impact.

## 20. Contingent Liabilities

Following are the significant contingent liabilities of the Company as at December 31, 2014 and 2013:

- a. Additional Tranche B Concession Fees and interest penalty are being claimed by MWSS in excess of the amount recommended by the Receiver. Such additional charges being claimed by MWSS (in addition to other miscellaneous claims) amounted to ₱5.0 billion and ₱4.9 billion as at December 31, 2014 and 2013, respectively. The Rehabilitation Court has resolved to deny and disallow the said disputed claims of MWSS in its December 19, 2007 Order, upholding the recommendations of the Receiver on the matter. Following the termination of the Parent Company's rehabilitation proceedings, the Parent Company and MWSS sought to resolve this matter in accordance with the dispute requirements of the TCA (see Note 13).

- b. On October 13, 2005, the Parent Company and Manila Water (the “Concessionaires”) were jointly assessed by the Municipality of Norzagaray, Bulacan for real property taxes on certain common purpose facilities purportedly due from 1998 to 2005 amounting to ₱357.1 million. It is the position of the Concessionaires that it is the Republic of the Philippines that owns these properties, and is therefore, exempt from taxation.

The supposed joint liability of the Concessionaires for real property tax, including interests, amounted to about ₱1.0 billion as at December 31, 2014.

After the Local Board of Assessment Appeals (“LBAA”) ruled in favor of the Municipality of Norzagaray, Bulacan, the Concessionaires elevated the ruling of the LBAA to the Central Board of Assessment Appeals (“CBAA”) by filing separate appeals. As at February 23, 2015, the case is still pending.

- c. On November 24, 2006, the Labor Arbiter issued a decision in favor of the Maynilad Water Supervisors Association (“MWSA”), ordering the payment of Cost-of-Living Allowance (COLA) to the Parent Company’s supervisor-employees, retroactive to the date when they were hired by the Parent Company in 1997, with legal interest from the date of promulgation of the decision until full payment of the award or ₱249.5 million as computed and claimed by MWSA. This decision was reversed and set aside by the National Labor Relations Commission (“NLRC”) in 2007, but reinstated by the Court of Appeals in 2010. After the issuance of the Labor Arbiter’s decision in 2007, the Parent Company executed a compromise agreement with MWSA, wherein the Parent Company agreed to pay MWSA residual benefits equivalent to its claim for COLA for 23 months, from August 1997 to June 1999. Thus, the Parent Company’s dispute with MWSA was limited to the supervisor-employees claim for COLA from July 1999 up to the present time. In 2011, the Court of Appeals granted the motion for reconsideration filed by the Parent Company by issuing an amended decision reinstating and affirming the resolutions of the NLRC. The Court of Appeals thereafter issued a resolution denying the motion for reconsideration filed by MWSA. On November 16, 2011, MWSA filed a Petition for Review on Certiorari before the Supreme Court, seeking to annul the said amended decision and the resolution of the Court of Appeals.

On December 11, 2013, Notice of Judgment was issued by the Supreme Court which upheld the assailed Amended Decision and Resolution of the Court of Appeals which held that the employees of the Parent Company are not entitled to receive COLA pursuant to the terms of the Concession Agreement.

On February 26, 2014, the Second Division issued a resolution (1) denying with finality MWSA’s motion for reconsideration and (2) denying MWSA’s motion to refer the case to the Court En Banc. In its Decision, the Supreme Court upheld the assailed Amended Decision and Resolution of the Court of Appeals that reinstated the earlier ruling of the NLRC that held that the employees of Maynilad are not entitled to receive COLA pursuant to the terms of the Concession Agreement.

- d. The Parent Company is a party to various civil and labor cases relating to breach of contracts with damages, illegal dismissal of employees, and nonpayment of backwages, benefits and performance bonus, among others.

---

## 21. Registration with the Board of Investments (BOI)

### Maynilad

The Parent Company is registered with the BOI under Executive Order No. 226, as amended, as a new operator of water supply and sewerage system for the West Service Area on a pioneer status.

The registration entitles the Parent Company to incentives which include, among others, an ITH for a period of six years beginning on Commencement Date or from actual start of commercial operations, whichever comes first.

On April 16, 2008, the BOI granted the request of the Parent Company for the extension of the period for the ITH availment from August 2001 - July 2007 to January 2003 - December 2008.

On October 20, 2008, the Parent Company filed an application for an ITH bonus year. The application was for the extension of the availment of the ITH incentive by the Parent Company for one (1) year or for the period January 1, 2009 to December 31, 2009. The BOI approved the Parent Company's application on December 22, 2008.

On December 16, 2009, the Parent Company was issued with BOI Registration Certificate Nos. 2009-188 and 2009-189 as a new operator of the 1500 million liters per day (MLD) and 900 MLD Bulk Water Supply and Distribution Projects pertaining to the La Mesa Treatment Plants 1 and 2, respectively. The registrations entitle the Parent Company to incentives which include an ITH for six years from January 2010 or actual start of commercial operations, whichever is earlier, but in no case earlier than the date of registration. Registration as new operator of 200 MLD Bulk Water Supply and Distribution Project (Putatan, Muntinlupa) was likewise approved by the BOI in December 2009. The Certificates of Registration were issued in December 2009. This also entitles the Project to a six year ITH commencing on January 2011 or actual start of commercial operations. Commercial operations of the Project started on January 1, 2011. The ITH incentives shall be limited to the sales/revenue generated from the operation of the three plants which substantially cover the total capacity of the Parent Company. ITH incentive enjoyed by the Company amounted to ₱2,078.0 million, ₱1,806.2 million and ₱1,889.9 million in 2014, 2013 and 2012, respectively (see Note 16).

### Phil Hydro

On November 22, 2007, Phil Hydro's operations in Legazpi City were registered with the BOI as New Bulk Supplier of Treated Water on a pioneer status under Omnibus Investments Code of 1987 (the Code). Subject to certain conditions and requirements, Phil Hydro's operations in Legazpi City are entitled to the following benefits, among others:

- a. ITH for six years until December 31, 2013 limited to the revenue generated from the sales of bulk water supply to LCWD representing the value of transactions as covered by the registration;
- b. Employment of foreign nationals for supervisory, technical or advisory positions for five years;
- c. Importation of consigned equipment for a period of 10 years from date of registration, subject to the posting of re-export bond; and,
- d. Importation of capital equipment at 0% duty from date of registration up to June 16, 2011.

For (d) above, Phil Hydro has not imported any capital equipment in 2014, 2013 and 2012.

On December 18, 2009, the BOI approved Phil Hydro's another application for ITH for the operations in Norzagaray, Bulacan as New Operator of Bulk Water Supply Facility (Water Filtration Plant) on a non-pioneer status under the Code. As a registered enterprise, Phil Hydro is entitled to the following benefits, among others, subject to certain conditions and requirements:

- a. ITH for four years until December 31, 2013 limited to the revenue generated from the registered bulk water supply facility with NWD; and,
- b. Importation of capital equipment at 0% duty from date of registration up to June 16, 2011.

For (b) above, Phil Hydro has not imported any capital equipment in 2014, 2013 and 2012.

---

## 22. Significant Contracts with Manila Water (East Concessionaire)

In relation to the Concession Agreement, the Parent Company entered into the following contracts with the East Concessionaire:

- a. Interconnection Agreement wherein the two Concessionaires shall form an unincorporated joint venture that will manage, operate, and maintain interconnection facilities. The terms of the agreement provide, among others, the cost and the volume of water to be transferred between zones; and
- b. Common Purpose Facilities Agreement that provides for the operation, maintenance, renewal, and, as appropriate, decommissioning of the Common Purpose Facilities, and performance of other functions pursuant to and in accordance with the provisions of the Concession Agreement and performance of such other functions relating to the Concession (and the Concession of the East Concessionaire) as the Parent Company and the East Concessionaire may choose to delegate to the Joint Venture, subject to the approval of MWSS.

---

## 23. Commitments

### Concession Agreement

Significant commitments under the Concession Agreement follow:

- a. Payment of Concession Fees (see Note 8)
- b. Posting of performance bond (see Note 7)

Under Section 6.9 of the Concession Agreement, the Parent Company is required to post a performance bond to secure the performance of its obligations under certain provisions of the Concession Agreement. The aggregate amount drawable in one or more installments under such performance bond during the Rate Rebasing Period to which it relates is set out below.

Rate Rebasing Period	Aggregate Amount Drawable Under Performance Bond
	<i>(In Millions)</i>
First (August 1, 1997–December 31, 2002)	US\$120.0
Second (January 1, 2003–December 31, 2007)	120.0
Third (January 1, 2008–December 31, 2012)	90.0
Fourth (January 1, 2013–December 31, 2017)	80.0
Fifth (January 1, 2018–May 6, 2022)	60.0

Within 30 days from the commencement of each renewal date, the Parent Company shall cause the performance bond to be reinstated to the full amount applicable to the rate rebasing period as set forth above.

In connection with the extension of the term of the Concession Agreement (see Note 1), certain adjustments to the obligation of the Parent Company to post the performance bond under Section 6.9 of the Concession Agreement have been approved and summarized as follows:

- The aggregate amount drawable in one or more installments under each performance bond during the Rate Rebasing Period to which it relates has been adjusted to US\$30.0 million until the Expiration Date
  - The amount of the Performance Bond for the period covering 2023 to 2037 shall be mutually agreed upon in writing by the MWSS and the Parent Company consistent with the provisions of the Concession Agreement.
  - The Parent Company posted the Surety Bond for the amount of US\$90.0 million issued by Prudential Guarantee and Assurance, Inc. (the Surety) in favor of MWSS, as security for the Parent Company's proper and timely performance of its obligations under the Concession Agreement. On December 6, 2012, the Parent Company renewed the Surety Bond for the amount of US\$80.0 million issued by the Surety in favor of MWSS. The liability of the Surety under this bond will expire on December 31, 2017.
- c. Payment of half of MWSS and MWSS-RO's budgeted expenditures for the subsequent years, provided the aggregate annual budgeted expenditures do not exceed ₱200.0 million, subject to CPI adjustments. As a result of the extension of the life of the Concession Agreement, the annual budgeted expenditures shall increase by 100%, subject to CPI adjustments, effective January 2010 (see Note 8).
- d. To meet certain specific commitments in respect to the provision of water and sewerage services in the West Service Area, unless modified by the MWSS-RO due to unforeseen circumstances.
- e. To operate, maintain, renew and, as appropriate, decommission facilities in a manner consistent with the National Building Standards and best industrial practices so that, at all times, the water and sewerage system in the West Service Area is capable of meeting the service obligations (as such obligations may be revised from time to time by the MWSS-RO following consultation with the Parent Company).
- f. To repair and correct, on a priority basis, any defect in the facilities that could adversely affect public health or welfare, or cause damage to persons or third-party property.
- g. To ensure that at all times the Parent Company has sufficient financial, material and personnel resources available to meet its obligations under the Concession Agreement.
- h. Non-incurrence of debt or liability that would mature beyond the term of the Concession Agreement, without prior notice to MWSS.

Failure of the Parent Company to perform any of its obligations under the Concession Agreement of a kind or to a degree which, in a reasonable opinion of the MWSS-RO, amounts to an effective abandonment of the Concession Agreement and which failure continues for at

least 30 days after written notice from the MWSS-RO, may cause the Concession Agreement to be terminated.

#### Operating Lease Commitments

The Company leases the office space and branches where service outlets are located, equipment and service vehicles, renewable under certain terms and conditions to be agreed upon by the parties. Total rent expense for the above operating leases amounted to ₱167.7 million, ₱158.9 million and ₱175.2 million in 2014, 2013 and 2012, respectively (see Note 24).

Future minimum operating lease payments as at December 31 are as follows:

<u>Period Covered</u>	<u>2014</u>	<u>2013</u>
	<i>(In Millions)</i>	
Not later than one year	<b>₱111.58</b>	₱132.40
More than one year and not later than five years	<b>154.30</b>	76.18
More than five years	<b>170.31</b>	-

---

#### **24. Assets Held in Trust**

##### Materials and Supplies

The Parent Company has the right to use any items of inventory owned by MWSS in carrying out its responsibility under the Concession Agreement, subject to the obligation to return the same at the end of the concession period, in kind or in value at its current rate, subject to CPI adjustments.

##### Facilities

The Parent Company has been granted the right to operate, maintain in good working order, repair, decommission and refurbish the movable property required to provide the water and sewerage services under the Concession Agreement. MWSS shall retain legal title to all movable property in existence at the Commencement Date. However, upon expiration of the useful life of any such movable property as may be determined by the Parent Company, such movable property shall be returned to MWSS in its then-current condition at no charge to MWSS or the Parent Company (see Note 8).

The Concession Agreement also provides the Parent Company and the East Concessionaire to have equal access to MWSS facilities involved in the provision of water supply and sewerage services in both West and East Service Areas including, but not limited to, the MWSS management information system, billing system, telemetry system, central control room and central records.

The net book value of the facilities transferred to the Parent Company on Commencement Date based on MWSS' closing audit report amounted to ₱7.3 billion with a sound value of ₱13.8 billion.

Beginning at the Commencement Date, MWSS' corporate headquarters were made available for a one-year lease to the Parent Company and the East Concessionaire, subject to yearly renewal with the consent of the parties concerned. As at December 31, 2014, the lease has been renewed for another year. Rent expense amounted to ₱38.0 million, ₱33.8 million and ₱33.1 million in 2014, 2013 and 2012, respectively (see Note 23).

## 25. Financial Risk Management Objectives and Policies

The Company's principal financial instruments are its debts to the local banks and concession fees payable to MWSS per Concession Agreement. Other financial instruments of the Company are purchase contracts, cash and cash equivalents and short-term investments. The main purpose of those financial instruments is to finance the Company's operations.

The main risks arising from the Company's principal financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

The BOD reviews and approves the policies for managing the Company's financial risks. The Company monitors risks arising from all financial instruments and regularly reports financial management activities and the results of these activities to the BOD.

### Interest Rate Risk

Interest rate risk is the risk that the future cash flows of financial instruments will fluctuate because of the changes in market interest rates. The Company's exposure to market risk for changes in interest rates relates primarily to the Company's interest-bearing loans.

The Company maintains a mix of floating and fixed rate interest-bearing loans, currently at a ratio of 3% floating and 97% fixed per abovementioned loan agreements. The floating rate interest-bearing loans will increase to a higher portion over time because of future drawdowns in connection to the MWMP loan agreement.

The following table shows the Company's significant financial liabilities that are exposed to cash flow interest rate risk:

₱21.2 billion Term Loan	Fixed rate benchmark+0.75% (5.75%, March 25, 2013 to March 25, 2018)
₱5.0 billion Corporate Notes (1 <sup>st</sup> drawdown)	Fixed rate benchmark+0.75% (5.75%, April 29, 2013 to April 29, 2018)
₱5.0 billion Corporate Notes (2 <sup>nd</sup> drawdown)	Fixed rate benchmark+0.75% (5.75%, October 29, 2013 to October 29, 2018)
US\$137.5 million Loan (US\$14.8 million drawdown)	Floating rate benchmark+1.25% (2.08%, November 15, 2014 to May 15, 2015)

Interest on financial liabilities classified as fixed rate is fixed until the maturity of the instrument.

The following tables show information about the Company's financial liabilities that are exposed to cash flow and fair value interest rate risks.

	2014	
	Within 1 Year	Total
Short-term cash investments:		
Cash and cash equivalents (1-90 days)*	<b>₱4,147,586</b>	<b>₱4,147,586</b>

				<b>8,870,073</b>
				<b>₱34,212,108</b>

The following table demonstrates the sensitivity of the Company's profit before tax to a reasonably possible change in interest rates for the years ended December 31, 2014 and 2013, with all variables held constant (through the impact on floating rate borrowings). The estimates are based on the management's annual financial forecast. There is no impact on the Company's equity other than those already affecting income.

	2014	
	Increase/ Decrease in Basis Points	Effect on Income Before Tax
Floating rate borrowings	+50	(P3,121)
	-50	3,121
	2013	
	Increase/ Decrease in Basis Points	Effect on Income Before Tax
Floating rate borrowings	+50	(P236)
	-50	236

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future value of financial instruments will fluctuate because of changes in foreign exchange rates.

The Company's foreign currency risk results primarily from movements of the Philippine Peso against the United States Dollar, European Euro and the Japanese Yen. The servicing of foreign currency denominated loans of MWSS is among the requirements of the Concession Agreement. Revenues are generated in Philippine Peso. However, there is a mechanism in place as part of the Concession Agreement wherein the Company (or the end consumers) can recover currency fluctuations through the FCDA that is approved by the Regulatory Office.

Information on the Company's foreign currency-denominated monetary assets and liabilities and the Philippine Peso equivalent of each as at December 31, 2014 and 2013 is presented as follows:

	2014			Total Peso Equivalent
	US Dollar	Euro	JPY	
<b>Asset</b>				
Cash and cash equivalents, short-term investments and sinking fund	\$5,054	€-	¥-	P226,012
<b>Liabilities</b>				
Interest-bearing loans	(\$14,823)	€-	¥-	(P662,902)
Service concession obligation payable to MWSS	(92,802)	(438)	(855,090)	(4,490,302)
	(107,625)	(438)	(855,090)	(5,153,204)
<b>Net foreign currency denominated liabilities</b>	(\$102,571)	(€438)	(¥855,090)	(P4,927,192)

The spot exchange rates used were P44.72:US\$1, P54.34:EUR1, and P0.37:JPY1 as at December 31, 2014.

	2013			Total Peso Equivalent
	US Dollar	Euro	JPY	
<b>Asset</b>				
Cash and cash equivalents and short-term investments	\$305	€-	¥-	₱13,540
<b>Liabilities</b>				
Interest-bearing loans	(\$2,000)	€-	¥-	(₱88,790)
Service concession obligation payable to MWSS	(96,082)	(595)	(1,708,638)	(5,018,896)
	(98,082)	(595)	(1,708,638)	(5,107,686)
Net foreign currency denominated liabilities	(\$97,777)	(€595)	(¥1,708,638)	(₱5,094,146)

The spot exchange rates used were ₱44.39:US\$1, ₱60.82:EUR1, and ₱0.42:JPY1 as at December 31, 2013.

The following table demonstrates the sensitivity to a reasonably possible change in foreign exchange rates, with all variables held constant, of the Company's profit before tax (due to changes in the fair value of monetary assets and liabilities) and equity as at December 31, 2014 and 2013. The estimates in the movement of the foreign exchange rates were based on the management's annual financial forecast.

	Increase/Decrease in Peso and U.S Dollar, Euro and JPY Exchange Rates	Foreign Exchange Rate	Effect on Income Before Income Tax
<b>2014</b>			
U.S Dollar	+1%	44.72	(₱45,870)
Euro	+1%	54.34	(238)
JPY	+1%	0.37	(3,164)
U.S Dollar	-1%	44.72	45,870
Euro	-1%	54.34	238
JPY	-1%	0.37	3,164
	Increase/Decrease in Peso and U.S Dollar, Euro and JPY Exchange Rates	Foreign Exchange Rate	Effect on Income Before Income Tax
<b>2013</b>			
U.S Dollar	+1%	44.39	(₱43,403)
Euro	+1%	60.82	(362)
JPY	+1%	0.42	(7,176)
U.S Dollar	-1%	44.39	43,403
Euro	-1%	60.82	362
JPY	-1%	0.42	7,176

The Company recognized net foreign exchange gain of ₱112.6 million and ₱176.1 million in 2014 and 2013, respectively, mainly arising from the translation of the Company's cash and cash equivalents, short-term investments, deposits, interest-bearing loans and service concession obligation payable to MWSS. However, the net foreign exchange gain/loss on interest-bearing loans and service concession obligation payable to MWSS is subject to foreign exchange recovery mechanisms under the Concession Agreement (see Note 2).

Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Company trades only with recognized, creditworthy third parties. It is the Company's policy that except for connection fees and other highly meritorious cases, it does not offer credit terms to its customers. Because of the basic need service it provides, historical collections of the Company are relatively high. Credit exposure is widely dispersed. Receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts is not significant.

With respect to credit risk arising from the other financial assets of the Company, consisting of cash and cash equivalents, short-term cash investments, deposits and sinking fund and miscellaneous deposits, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Company transacts only with institutions or banks which have demonstrated financial soundness for the past five years.

The Company has no significant concentrations of credit risk.

The table below shows the maximum exposure to credit risk for the components of the consolidated statements of financial position as at December 31, 2014 and 2013:

	2014	2013
Cash and cash equivalents* (see Note 5)	<b>₱4,147,586</b>	₱2,844,095
Short-term investments	<b>2,915,000</b>	3,627,000
Trade and other receivables - net (see Note 6)	<b>2,048,550</b>	2,010,165
Deposits and sinking fund (see Note 7)	<b>1,884,781</b>	1,761,644
Miscellaneous deposits**	<b>206,202</b>	155,364
<b>Total credit risk exposure</b>	<b>₱11,202,119</b>	<b>₱10,398,268</b>

\*Excludes cash on hand amounting to ₱40,952 and ₱20,310 as at December 31, 2014 and 2013, respectively.

\*\*Included as part of "Other noncurrent assets" in the consolidated statements of financial position.

As at December 31, 2014 and 2013, the credit quality per class of financial assets that were neither past due nor impaired are as follows:

	2014				
	Neither Past Due nor Impaired		Past Due but not Impaired	Impaired	Total
	High Grade	Standard			
Cash and cash equivalents	₱4,188,538	₱-	₱-	₱-	₱4,188,538
Short term investments	2,915,000	-	-	-	2,915,000
Trade and other receivables	1,566,262	373,303	108,985	1,267,971	3,316,521
Deposits and sinking fund	1,884,781	-	-	-	1,884,781
Miscellaneous deposits	-	206,202	-	-	206,202
	<b>₱10,554,581</b>	<b>₱579,505</b>	<b>₱108,985</b>	<b>₱1,267,971</b>	<b>₱12,511,042</b>

	2013				
	Neither Past Due nor Impaired		Past Due but not Impaired	Impaired	Total
	High Grade	Standard			
Cash and cash equivalents	₱2,864,405	₱-	₱-	₱-	₱2,864,405
Short term investments	3,627,000	-	-	-	3,627,000
Trade and other receivables	791,539	650,811	567,815	1,267,613	3,277,778
Deposits and sinking fund	1,761,644	-	-	-	1,761,644
Miscellaneous deposits	-	155,364	-	-	155,364
	<b>₱9,044,588</b>	<b>₱806,175</b>	<b>₱567,815</b>	<b>₱1,267,613</b>	<b>₱11,686,191</b>

Past due accounts amounting to ₱109.0 million and ₱567.8 million as at December 31, 2014 and 2013, respectively, are not impaired since based on the Company's experience, these receivables are normally collected the following year.

The credit quality of the financial assets was determined as follows:

Cash and cash equivalents, short-term investments, and deposits and sinking fund are placed in various banks. These are held by large prime financial institutions that have good reputation and low probability of insolvency. Management assesses the quality of these financial assets as high grade.

For trade and other receivables, high grade relates to those which are consistently collected before the maturity date, normally seven days from bill delivery. Standard grade includes receivables from customers that are collectible beyond seven days from bill delivery even without an effort from the Company to follow them up, or those advances from officers and employees that are collected through salary deduction. For miscellaneous deposits, standard grade consists of meter and security deposits that are normally refundable upon termination of service.

#### Liquidity Risk

Liquidity risk is the potential for not meeting the obligations as they become due because of an inability to liquidate assets or obtain adequate funding.

The Company monitors its risk to a shortage of funds using a recurring liquidity planning. Cash planning considers the maturity of both its financial investments and financial assets (e.g., trade and other receivables, other financial assets) and projected cash flows from operations.

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank drafts, bank loans, debentures, preference shares, finance leases and hire purchase contracts.

The tables below summarize the maturity profile of the Company's financial liabilities as at December 31, 2014 and 2013 based on contractual undiscounted payments.

	2014				Total
	On Demand	Due Within 3 Months	Due Between 3 and 12 Months	Due after 12 Months	
Interest-bearing loans*	₱—	₱1,134,467	₱897,596	₱22,509,248	₱24,541,311
Trade and other payables**	545,559	1,492,657	2,941,583	4,746,646	9,726,445
Service concession obligation payable to MWSS	—	—	1,094,378	7,040,965	8,135,343
Customers' deposits	—	—	—	752,526	752,526
	<b>₱545,559</b>	<b>₱2,627,124</b>	<b>₱4,933,557</b>	<b>₱35,049,385</b>	<b>₱43,155,625</b>

\*Principal plus interest payment

\*\*Excludes taxes payable and interest payable

	2013				Total
	On Demand	Due Within 3 Months	Due Between 3 and 12 Months	Due after 12 Months	
Interest-bearing loans*	₱-	₱1,210,970	₱846,082	₱23,620,704	₱25,677,756

Trade and other receivables	791,539	650,811	567,815	-	2,010,165
Deposits and sinking fund	1,761,644	-	-	-	1,761,644
AFS financial assets	210,584	-	-	-	210,584
Miscellaneous deposits	-	-	-	155,364	155,364
	<b>₱3,424,297</b>	<b>₱2,854,686</b>	<b>₱4,194,815</b>	<b>₱155,364</b>	<b>₱10,629,162</b>

### Capital Management

The primary objective of the Company's capital management strategy is to ensure that it maintains a healthy capital structure in order to maintain a strong credit standing while it maximizes shareholder value.

The Company closely manages its capital structure vis-a-vis a certain target gearing ratio, which is net debt divided by total capital plus net debt. The Company's target gearing ratio is 75%. This target is to be maintained over the next five years by managing the Company's level of borrowings and dividend payments to shareholders.

For purposes of computing its net debt, the Company includes the outstanding balance of its long-term interest-bearing loans, service concession obligation payable to MWSS and trade and other payables, less the outstanding cash and cash equivalents, short-term investments, deposits and sinking fund. To compute its capital, the Company uses net equity.

	2014	2013
Interest-bearing loans and service concession obligation payable to MWSS (see Notes 11 and 13)	<b>₱32,336,754</b>	₱34,212,108
Trade and other payables (see Note 12)	<b>10,333,720</b>	12,226,318
Less cash and cash equivalents, short-term investments, deposits and sinking fund (see Notes 5 and 7)	<b>(8,988,319)</b>	(8,253,049)
Net debt (a)	<b>33,682,155</b>	38,185,377
Net equity	<b>27,867,031</b>	20,692,917
Net equity and debt (b)	<b>₱61,549,186</b>	₱58,878,294
Gearing ratio (a/b)	<b>55%</b>	65%

For purposes of monitoring debt ratio covenants, the Company computes using both interest-bearing debt and total liabilities. The Company closely monitors its debt covenants and maintains a capital expenditure program and dividend declaration policy that keeps the compliance of these covenants into consideration.

## 26. Financial Assets and Financial Liabilities

The following table summarizes the carrying values and fair values of the Company's financial assets and financial liabilities as at December 31, 2014 and 2013:

	2014		2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
<b>Financial Assets</b>				
Loans and receivables -				
Miscellaneous deposits (included under "Other noncurrent assets" account)	<b>₱206,202</b>	<b>₱159,622</b>	₱155,364	₱109,015
<b>Financial Liabilities</b>				
Other financial liabilities:				
Interest-bearing loans	<b>₱24,201,411</b>	<b>₱27,749,815</b>	₱25,342,035	₱29,320,921
Service concession obligation payable to MWSS	<b>8,135,343</b>	<b>9,967,797</b>	8,870,073	10,909,218
Customers' deposits	<b>219,945</b>	<b>648,896</b>	240,543	607,459
	<b>₱32,556,699</b>	<b>₱38,366,508</b>	₱34,452,651	₱40,837,598

The following methods and assumptions were used to estimate the fair value of each class of financial assets and financial liabilities for which it is practicable to estimate such value:

*Cash and Cash Equivalents, Short-term Investments, Trade and Other Receivables, Deposits and Sinking Fund, and Trade and Other Payables.* Due to the short-term nature of these transactions, the carrying values approximate the fair values as at the reporting date.

*AFS Financial Assets.* Fair value is equivalent to the carrying value because the Company's AFS financial assets pertain to unquoted equity investments.

*Interest-bearing Loans.* For floating rate loans, the carrying value approximates the estimated fair value as at the reporting date due to quarterly repricing of interest rates. For fixed rate loans, the estimated fair value is based on the discounted value of future cash flows using the applicable rates for similar types of financial instruments.

*Miscellaneous Deposits, Service Concession Obligation Payable to MWSS and Customers' Deposits.* Estimated fair value is based on the discounted value of future cash flows using the applicable rates for similar types of financial instruments.

The fair values of fixed rate interest-bearing loans, miscellaneous deposits, service concession obligation payable to MWSS and customers' deposits are determined using Fair Value Hierarchy Level 3.

---

**27. Supplemental Disclosure of Cash Flow Information**

	2013	2012
Noncash operating activity -		
Unpaid concession fees (see Notes 8 and 13)	₱214,495	₱1,080,802
Noncash investing activity -		
Unpaid consideration related to the acquisition of Phil Hydro (see Note 4)	-	316,950

There is no noncash activity in 2014.

---

**28. Events After the Reporting Period**

On February 23, 2015, the Parent Company's BOD approved the appropriation of its retained earnings amounting to ₱2.0 billion for distribution of cash dividends to its stockholders and ₱3.5 billion for various water and sewerage projects expected to be implemented in the next two years.
