Clarification of News Report

We write with respect to the attached news article entitled "Absolut in talks with MVP to build waste-to-energy facility", posted in BusinessMirror (Internet Edition) on June 19, 2019. The article reported that:

"ABSOLUT Distillers Inc. (ADI) is in talks with the group of Manuel V. Pangilinan to jointly develop renewable energy (RE), particularly waste-to-energy facility.

'We are talking to Metro Pacific, also a group owned by [Manuel V. Pangilinan], to jointly develop in converting our wastewater to energy. They call the company MetPower. This will complement hand in hand with our acquisition of Central Azucarera Don Pedro Inc.,' ADI Chief Operating Officer and Head of distillery operations Gerardo T. Tee said.

The company, he explained, wants to utilize the distillery's wastewater and convert this to a source of energy.

'We want to sell our wastewater to make it a commodity. We want to be the first distillery, at least in this region, to make our wastewater a commodity.

Our wastewater has high biological oxygen demand and that is equivalent to methane gas which can be converted to energy when you place it in a digester in a bioreactor,' Tee said.

...."

We confirm that MetPower Venture Partners Holdings, Inc. is in discussion with Absolut Distillers Inc. for a waste-to-energy project. However, no definitive agreement on this particular project has been signed to date.

We hope to have clarified the quoted news article in the interest of the trading participants and the investing public.

Other Relevant Information

None.
