Subject of News Report	"Maynilad to pour in P200 billion for wastewater"
Date of Publication	Sep 20, 2019

Clarification of News Report

We write with respect to the attached news article entitled "Maynilad to pour in P200 billion for wastewater" posted in philstar.com on September 20, 2019. The article reported in part that:

"MANILA, Philippines — West Zone concessionaire Maynilad Water Services Inc. is spending P200 billion to complete its wastewater program as part of the concession's agreement for a full sewer and sanitation coverage by 2037.

The Pangilinan-led water firm said the investment would go to the construction of 26 new sewage treatment plants with a combined treatment capacity of 1,600 million liters per day.

It will also cover the installation of some 425 kilometers of new sewer lines that will catch the wastewater generated by around 10 million Maynilad customers, and the operation and maintenance of all wastewater facilities, among others.

'Maynilad only started investing heavily in the wastewater infrastructure after it got out of corporate rehabilitation in 2008 and expanded water service to more areas,' Maynilad president and chief executive officer Ramoncito Fernandez said.

'Despite this, we managed to increase sewerage coverage in the west zone to 20 percent of our 9.5 million water-served population,' he said.

The planned investment is on top of the P39 billion expenditures and committed costs that Maynilad put into wastewater projects and services since 1997 when operations were privatized.

..."
